Note

- The vehicle can be used again immediately as soon as the repair work has been completed.
- Depending on the type of damage, there is a possibility that some traces of the damage will remain. However, this does not have any bearing on the success of the repair job.
- Once the repair is completed, the windscreen can be subjected to normal loads. The expected and hardened surface layer ensures that the crack will not spread any further. The hard-surfaced resin is colourless and has the same reflective index as the windscreen glass.
