This unique volume edited by Nora Lustig, an equity expert at Tulane University, helps fill that void. Developed by the Commitment to Equity Institute at Tulane, the book examines both the theory and the practical methods for determining the impact of taxation and public spending on inequality and poverty. It provides a step by step guide for policymakers, economists and social planners when analyzing whether fiscal policy has narrowed or widened inequality. The book also has user-written software for conducting a Commitment to Equity Assessment along with several country studies of these assessments. In addition to serving as a manual, the book can be used as a stand alone reference for those interested in the methods for assessing the impact on equity of fiscal policy. It also serves as a textbook for advanced
