

Plato's "The Allegory of the Cave"

"The unexamined life is not worth living." (Socrates)

An allegory is a story that has a second meaning beneath the surface meaning.

A symbol is something that means more than its literal meaning.

An extended metaphor compares two unlike things through several lines or an entire work.

Answer the following questions in complete sentences.

1. Plato calls his story an allegory. Does this story meet the definition of an allegory? Why or why not?

2. Review the locations of the man who goes out of and then returns to the cave. What are at least 3 symbols in the story? Explain what other meaning each have.

3. Socrates says, "... the bewilderments of the eyes are of two kinds, and arise from two causes, either from coming out of the light or from going into the light, which is true of the mind's eye, quite as much as of the bodily eye. He who remembers this when he sees anyone who is perplexed and weak will not be too ready to laugh" (lines 94-97).

What does this mean? How can you apply this to your life?

4. Although the men in the cave rejected the knowledge of the one who escaped, is there value in sharing knowledge with those who do not have it? Why or why not?
