This book provides you with the knowledge needed to design enterprise networks. By reading this book you will gain a thorough understanding of designing routed and switched network infrastructures and services within a modular architecture. In *Designing for Cisco Internetwork Solutions DESGN Second Edition* you will study a broad range of network design principles and guidelines. You will learn about network design in the context of the Cisco Service Oriented Network Architecture (SONA) framework and the Cisco Enterprise Architecture. Specific topics include campus and data center infrastructure, remote connectivity, IP addressing, design, routing, protocol selection, voice network design, wireless network design, and including security in your designs. An ongoing case study plus chapter ending review questions illustrate and help solidify the concepts presented in the book. Whether you are preparing for CCDA certification or simply want to gain a better understanding of network design principles, you will benefit from the foundation information presented in this book. *Designing for Cisco Internetwork Solutions DESGN Second Edition* is part of a recommended learning path from Cisco that includes simulation and hands-on training from authorized Cisco Learning Partners and self-study products from Cisco Press. To find out more about instructor-led training, e-learning, and hands-on instruction offered by authorized Cisco Learning Partners worldwide, please visit www.cisco.com/go/authorizedtraining. Diane Teare is a professional in the networking training and e-learning fields. She has more than 20 years of experience in designing, implementing, and troubleshooting network hardware and software, and has also been involved in teaching, course design, and project management. She has extensive knowledge of network design and routing technologies and is an instructor with one of the largest authorized Cisco Learning Partners.

Understand the Cisco vision of intelligent networks and the SONA framework. Learn how to structure and modularize network designs within the Cisco Enterprise Architecture. Design basic campus and data center networks. Build designs for remote connectivity with WAN technologies. Create IPv4 addressing schemes. Understand IPv6 design. Select the appropriate routing protocol for various modules in the Cisco Enterprise Architecture. Design basic VoIP and IP telephony networks. Understand wireless design principles. Build security into your network designs. This volume is in the Certification Self-Study Series offered by Cisco Press. Books in this series provide officially developed self-study solutions to help networking professionals understand technology implementations and prepare for the Cisco Career Certifications examinations.

Learning from Our Buildings National Research Council, Board on Infrastructure and the Constructed Environment, Federal Facilities Council, 2002-01-29. In 1986 the FFC requested that the NRC appoint a committee to examine the field and propose ways by which the POE process could be improved to better serve public and private sector organizations. The resulting report, *Post Occupancy Evaluation Practices in the Building Process: Opportunities for Improvement*, proposed a broader view of POEs from being simply the end phase of a building project to being an integral part of the entire building process. The authoring committee recommended a series of actions related to policy, procedures, and innovative technologies and techniques to achieve that broader view. In 2000 the

FFC funded a second study to look at the state of the practice of POEs and lessons learned programs among federal agencies and in private public and academic organizations both here and abroad The sponsor agencies specifically wanted to determine whether and how information gathered during POE processes could be used to help inform decisions made in the programming budgeting design construction and operation phases of facility acquisition in a useful and timely way To complete this study the FFC commissioned a set of papers by recognized experts in this field conducted a survey of selected federal agencies with POE programs and held a forum at the National Academy of Sciences on March 13 2001 to address these issues This report is the result of those efforts
