Magical Thinking Sadie McCarney, 2023-04-18 Sadie McCarney s *Your Therapist Says It s Magical Thinking* is a buoyant second collection that playfully navigates the turbulent waters of life with mental illness and neurodivergence In much of the book history and science are treated the way they are often viewed by a brain in mental turmoil places and events get switched around facts get rewritten and the fantastical reigns supreme Through poems ranging from didactic the horrible self care advice received by the poet when she was struggling most to historical fiction patients in an asylum in 1800s England to the quirky and unexpectedly fantastical a rainbow carpool unicorn a young child s timeline reversing each morning and an everything bagel that includes competing theories of time McCarney digs deep into the muck of her own lived experience She resurfaces with if not gold at least an old time capsule and a few treasured hunks of bone *Your Therapist Says It s Magical Thinking* highlights the sometimes dubious but always jubilant inner workings of a mentally unwell brain at play especially within the context of a larger society that frequently seeks to tamp down this weird and rare form of magic *Differentiated Assessment for Middle and High School Classrooms* Deborah Blaz, 2013-10-31 This book
