The Caesar of Paris Susan Jaques, 2018-12-04 Napoleon is one of history's most fascinating figures But his complex relationship with Rome both with antiquity and his contemporary conflicts with the Pope and Holy See have undergone little examination In The Caesar of Paris Susan Jaques reveals how Napoleon's dueling fascination and rivalry informed his effort

to turn Paris into the new Rome Europe's cultural capital through architectural and artistic commissions around the city His initiatives and his aggressive pursuit of antiquities and classical treasures from Italy gave Paris much of the classical beauty we know and adore today Napoleon had a tradition of appropriating from past military greats to legitimize his regime Alexander the Great during his invasion of Egypt Charlemagne during his coronation as emperor even Frederick the Great when he occupied Berlin But it was ancient Rome and the Caesars that held the most artistic and political influence and would remain his lodestars Whether it was the Arc de Triomphe the Venus de Medici in the Louvre or the gorgeous works of Antonio Canova Susan Jaques brings Napoleon to life as never before **The Pharaoh's Treasure** John Gaudet,2018-10-02 For our entire history humans have always searched for new ways to share information This innate compulsion led to the origin of writing on the rock walls of caves and coffin lids or carving on tablets But it was with the advent of papyrus paper when the ability to record and transmit information exploded allowing for an exchanging of ideas from the banks of the Nile throughout the Mediterranean and the civilized world for the first time in human history In **The Pharaoh's Treasure** John Gaudet looks at this pivotal transition to papyrus paper which would become the most commonly used information medium in the world for more than 4 000 years Far from fragile papyrus paper is an especially durable writing surface papyrus books and documents in ancient and medieval times had a usable life of hundreds of years and this durability has allowed items like the famous Nag Hammadi codices from the third and fourth century to survive **Confronting the Classics: Traditions, Adventures, and Innovations** Mary Beard,2013-09-09 An internationally recognized historian presents a revealing tour of the ancient world shedding new light on Greek and Roman history **Confronting the Classics** Mary Beard,2013-03-07 Mary Beard is one of the world's best known classicists a brilliant academic with a rare gift for communicating with a wide audience both through her TV presenting and her books In a series of sparkling essays she explores our rich classical heritage from Greek drama to Roman jokes introducing some larger than life characters of classical history such as Alexander the Great Nero and Boudicca She invites you into the places where Greeks and Romans lived and died from the palace at Knossos to Cleopatra's Alexandria and reveals the often hidden world of slaves She takes a fresh look at both scholarly controversies and popular interpretations of the ancient world from The Golden Bough to Asterix The fruit of over thirty years in the world of classical scholarship **Confronting the Classics** captures the world of antiquity and its modern significance with wit verve and scholarly expertise **Greek Epigram in Reception** Gideon Nisbet,2013-10 Tracing the evolution and reception history of a collection of ancient Greek epigrams from the early nineteenth to twentieth century the volume analyses the rhetoric which writers and translators brought to the text highlighting the after effects of this cultural war on the interpretations of Ancient Greece in British print culture **Disability Studies and the Classical Body** Ellen Adams,2021-05-13 By triangulating the Greco Roman world classical reception and disability studies this book presents a range of approaches that reassess and reimagine traditional themes from the narrative voice to sensory studies It argues that

disability and disabled people are the forgotten other of not just Classics but also the Humanities more widely Beyond the moral merits of rectifying this neglect this book also provides a series of approaches and case studies that demonstrate the intellectual value of engaging with disability studies as classicists and exploring the classical legacy in the medical humanities The book is presented in four parts Communicating and controlling impairment illness and pain Using creating and showcasing disability supports and services Real bodies and retrieving senses disability in the ritual record and Classical reception as the gateway between Classics and disability studies Chapters by scholars from different academic backgrounds are carefully paired in these sections in order to draw out further contrasts and nuances and produce a sum that is more than the parts The volume also explores how the ancient world and its reception have influenced medical and disability literature and how engagements with disabled people might lead to reinterpretations of familiar case studies such as the Parthenon This book is primarily intended for classicists interested in disabled people in the Greco Roman past and in how modern disability studies may offer insights into and reinterpretations of historic case studies It will also be of interest to those working in medical humanities sensory studies and museum studies and those exploring the wider tension between representation and reality in ancient contexts As such it will appeal to people in the wider Humanities who notwithstanding any interest in how disabled people are represented in literature art and cinema have had less engagement with disability studies and the lived experience of people with impairments
