*Song Interpretation in 21st-Century Pop Music* Ralf von Appen, André Doebling, Allan F. Moore, 2016-03-03 Existing books on the analysis of popular music focus on theory and methodology and normally discuss parts of songs briefly as examples The impression often given is that songs are being chosen simply to illuminate and exemplify a theoretical position In this book the obverse is true songs take centre stage and are given priority The authors analyse and interpret them intensively from a variety of theoretical positions that illuminate the song Thus methods and theories have to prove their use value in the face of a heterogeneous contemporary repertoire The book brings together researchers from very different cultural backgrounds and encourages them to compare their different hearings and to discuss the ways in which they make sense of specific songs All songs analysed are from the new millennium most of them not older than three years Because the most widely popular styles are too often ignored by academics this book aims to shed light on how million sellers work musically Therefore it encompasses a broad palette highlighting mainstream pop Lady Gaga Ke\$ha Lucenzo Amy McDonald but also accounting for critically acclaimed indie styles Fleet Foxes Death Cab for Cutie PJ Harvey R. B. Destiny's Child Janelle Monáe popular hard rock Kings of Leon Rammstein and current electronic music András Björk By concentrating on 13 well known songs this book offers some model analyses that can very easily be studied at home or used in seminars and classrooms for students of popular music at all academic levels

Hop There are additional chapters on characteristically German developments within music media journalism and the music industry The book will contribute to a better understanding of German Austrian and Swiss popular music and will interconnect international and especially Anglo American studies with German approaches The book as a consequence will show close connections between global and local popular music cultures and diverse traditions of study *Between Old Worlds and New* Wilfrid Mellers,1997 Wilfrid Mellers ranks among the most eminent of contemporary British writers and lecturers on music The range of his interest is exceptionally wide encompassing music from the renaissance to the present day from Monteverdi to Minimalism not excluding jazz and many different forms of popular music as well as music from non western cultures That breadth of vision is nowhere more apparent than in his occasional writings In these necessarily concentrated and closely focused pieces we find the essence of his thinking about music its nature and its meaning Written in the first instance for the general reader they also offer insights that should be of importance to music students in schools colleges and universities
