8
Questions 1–18 and A–C

Populations and communities

Checkup

1 STUDYING POPULATIONS (pp. 284–285)

1. What do the living organisms that form a population have in common?

They are of the same species, and they live in a shared space.

2. Give two examples of a plant population and two examples of an animal population.

Answers will vary. Examples: the cactus trees in Las Vegas and the dolphins in the south Indian Ocean; the grassy meadows on Mount Kenya and the shrubs of the savanna in Botswana; the oysters in Chesapeake Bay.

3. How can knowing the size of a wolf population be useful?

Answers will vary. Examples: It can tell us whether the population is healthy or in trouble, which will affect what people do for their environment.

4. For each of the following examples, name the factor that caused the population size to vary (births, deaths, immigration or emigration) and identify its effect.

a) Every spring, Canada geese return to the shores of Lake Thoreau.

b) During a logging operation, the noise from the forestry vehicles scared away the white-bellied deer in the vicinity.

c) In the spring, a female bear nurses her three cubs in her den.

d) Fish farmers stock a river with salmon fry.

e) Cottage owners can eliminate voles by installing traps in their yard.

Enter your answers in the table below.

Example	Factor	Effect on population size
a)	Immigration	Increase
b)	Emigration	Decrease
c)	Births	Increase
d)	Immigration	Increase
e)	Deaths	Decrease

Populations And Communities Answer Key

Approaches for Asian American Communities Simona C. Kwon, Chau Trinh-Shevrin, Nadia S. Islam, Stella S. Yi, 2022-10-27 An insightful text exploring health disparities in Asian American populations In the newly revised Second Edition of Applied Population Health Approaches for Asian American Communities a team of distinguished public health experts delivers a groundbreaking resource providing an in depth examination of the social political economic and cultural forces shaping Asian American health today Integrating up to date applied public health research for assessing health interventions and programs relevant to Asian American communities and other groups that have been historically marginalized this book highlights the different frameworks research designs and other methodological considerations for reaching Asian American and other ethnic communities In the latest edition of the book readers will find contextual explorations of the Asian American population in the United States as well as discussions of the measurement of health and risk across the lifespan in Asian American groups It also includes New and updated case studies showcasing the application of different frameworks and research designs Methodological considerations for reaching Asian American and other vulnerable and underserved communities Examples of successful implementations of community engagement and community based participatory research A valuable resource for all levels of health professionals practitioners and community advocates Applied Population Health Approaches for Asian American Communities remains the leading reference for anyone conducting or studying health disparities in Asian American communities or other groups that have been marginalized Consolidated guidelines on HIV,

viral hepatitis and STI prevention, diagnosis, treatment and care for key populations World Health Organization, 2022-07-29

The Consolidated guidelines on HIV viral hepatitis and STI prevention diagnosis treatment and care for key populations outline a public health response for five key populations men who have sex with men trans and gender diverse people sex workers people who inject drugs and people in prisons and other closed settings They present and discuss new recommendations and consolidate a range of recommendations and guidance from current WHO guidelines Particularly for key populations social legal structural and other contextual factors both increase vulnerability to HIV viral hepatitis and STIs and obstruct access to health and other essential services These guidelines highlight the critical importance of addressing structural barriers in all settings as a priority In most countries inadequate coverage and poor quality of services for key populations continue to undermine responses to HIV viral hepatitis and STIs All countries should prioritise reaching key populations and supporting key population communities to lead the response and provide equitable accessible and acceptable services In most countries inadequate coverage and poor quality of services for key populations continue to undermine responses to HIV viral hepatitis and STIs All countries should prioritise reaching these key populations and supporting key population communities to lead the response and provide equitable accessible and acceptable services to these groups

Community Health Nursing Karen Saucier Lundy, Sharyn Janes, 2009 Historically community health nursing has responded to the changing health care needs of the community and continues to meet those needs in a variety of diverse roles and settings Community Health Nursing Caring for the Public's Health Second Edition reflects this response and is representative of what communities signify in the United States a unified society made up of many different populations and unique health perspectives This text provides an emphasis on population based nursing directed toward health promotion and primary prevention in the community It is both community based and community focused reflecting the current dynamics of the health care system The Second Edition contains new chapters on disaster nursing and community collaborations during emergencies The chapters covering Family health ethics mental health and pediatric nursing have all been significantly revised and updated

Promoting Health and Addressing Disparities Amongst Indigenous Populations Esteban Ortiz-Prado, Jorge Vasconez-Gonzalez, Rene L. Begay, Juan Sebastian Izquierdo-Condoy, 2025-01-31 Indigenous populations have experienced centuries of oppression marginalization and discrimination In the present day this has left these populations even more vulnerable as they must confront a significant number of public health challenges to uphold their health and well being Indigenous peoples life expectancy is up to twenty years lower compared to non Indigenous people which can be attributed to the fact that these populations have an increased likelihood to be disproportionately affected by social determinants of health with poorer health outcomes These health outcomes contribute to the wide range of health burdens and disparities experienced by Indigenous populations including increased prevalence of chronic disease infectious disease and availability and accessibility of quality health care and treatment

Essentials of
