

Recording

Microphone

The microphone picks up the sound during a recording. It is more sensitive to sounds coming from the direction the lens is pointed.

Flying Erase Head

A separate erase head is mounted on the spinning headwheel (hence the term "flying"). This allows you to make clean edits without the "glitches" or "rainbow noise" that might occur at the beginning or end of recordings.

Tally Light

The tally light on the front of the camcorder lights when the camcorder is recording.

Quick Review Feature

Press and release *REW/REVIEW* (*REW* on remote) when the camcorder is in record-pause to review the last few seconds of a recording. The *CAM/OFF/ VCR* switch must be set to *CAM*.

The camcorder will play back the last few seconds of the recording, return the tape to its previous position, and return to record-pause.
