Visual Writing Alex Baratta, 2010-07-12 Considering the fact that the academic essay continues to be widely used as an assessment tool within education there is a need for students to develop their skills in this area However it is often the case that students perceive instruction in academic writing if it is offered at all as boring This book addresses these two issues First the book can be used by students themselves even in the absence of academic writing classes as a self help guide from which they can develop their knowledge of academic writing and subsequent proficiency Second by discussing the components of academic writing in terms such as film which are familiar to today's generation students are enabled to relate to the material better and see what might have been perceived as dull from a brand new perspective Visual learners in particular will enjoy the analogous link between films and essays and students today are arguably more visually literate than previous generations being exposed to visuals on a daily basis through text message iconography computer games and the Internet The visual instruction provided in turn helps to facilitate mental visuals in students minds from which their knowledge of essay writing can start to develop

Writing Instruction and Intervention for Struggling Writers Michael Dunn,2019-11-18 Writing is a challenging task for many children To address this issue many educational researchers advocate for schools to implement a multi tiered systems of support MTSS model where struggling writers can be detected as early as kindergarten and provided with intervention programming to improve their skills and hopefully not need long term placement in special education Traditionally schools have employed the wait to fail model where children were offered the opportunity to learn to read write and do math in the first few years of elementary school if they still struggled at the end of third grade age eight then they would be assessed for special education The problem with this was not only a delayed assessment timeline but also the standardized tests not having an adequate set of questions to assess early elementary grade skills as well as the ethical problems and racial ethnic biases of test questions MTSS provides educators with a renewed emphasis on early intervention and progress monitoring assessment once or twice a week to monitor each student s skills and make instructional changes to promote success This book offers a description and case examples of how schools and teachers can apply MTSS concepts for writing
