James Joyce and Classical Modernism Leah Culligan Flack, 2020-02-06 James Joyce and Classical Modernism contends that the classical world animated Joyce's defiant innovative creativity and cannot be separated from what is now recognized as his modernist aesthetic. Responding to a long standing critical paradigm that has viewed the classical world as a means of granting a coherent order shape and meaning to Joyce's modernist innovations Leah Flack explores how and why Joyce's fiction deploys the classical as the language of the new. This study tracks Joyce's sensitive on going readings of classical literature from his earliest work at the turn of the twentieth century through to the appearance of *Ulysses* in 1922 the watershed year of high modernist writing. In these decades Joyce read ancient and modern literature alongside one another to develop what Flack calls his classical modernist aesthetic which treats the classical tradition as an ally to modernist innovation. This aesthetic first comes to full fruition in *Ulysses* which self consciously deploys the classical tradition to defend stylistic experimentation as a way to resist static paralyzing notions of the past. Analysing Joyce's work through his career from his early essays Flack ends by considering the rich afterlives of Joyce's classical modernist project with particular attention to contemporary works by Alison Bechdel and Maya Lang.

Shakespeare's Classical Mythology: A Dictionary Janice Valls-Russell, Katherine Heavey, 2024-10-17 Why does Bassanio compare himself to Jason? What is Hecuba to Hamlet? Is the mechanicals staging of the Pyramus and Thisbe story funny or sad? This dictionary elucidates Shakespeare's use of mythological references in an early modern context while bringing them to life for today's audiences and readers at a time of renewed critical interest in the reception of the classics and fascination with classical mythology in popular culture. It is also a precious tool for practitioners who may not always know quite what to make of mythological references. Mythological figures, creatures, places and stories crowd Shakespeare's plays and poems featuring as allusions, poetic analogies, inset scenes, settings and characters or plots in their own right. Most of these references were familiar to Shakespeare's spectators and readers who knew them from the writings of Ovid, Virgil and other classical authors or indirectly through translations, commentaries, ballads and iconography. This dictionary illustrates how far from being isolated a mythological reference may resonate with the poetics of the text and its structure, cast light on characters and contexts and may therefore be worth exploring onstage in a variety of ways. The 200 headings correspond to words and names actually used by Shakespeare: individual figures, Dido, Venus, Hercules, categories, Amazons, Centaurs, nymphs, satyrs, places, Colchos, Troy, Medium and longer entries also cover early modern usage and critical analysis in a cross disciplinary approach that includes reception, textual, performance, gender and political studies.

Classical Reception Anastasia Bakogianni, Luis Unceta Gómez, 2024-07-22 In a time of acute crisis when our societies face a complex series of challenges: race, gender, inclusivity, changing pedagogical needs and a global pandemic we urgently need to re-access the nature of our engagement with the Classical World. This edited collection argues that we need to discover new ways to draw on our discipline and the material it studies to engage in

meaningful ways with these new academic and societal challenges The chapters included in the collection interrogate the very processes of reception and continue the work of destabilising the concept of a pure source text or point of origin Our aim is to break through the boundaries that still divide our ancient texts and material culture from their reception and interpretive communities Our contributors engage with these questions theoretically and or through the close examination of cultural artefacts They problematise the concept of a Western elitist canon and actively push the geographical boundaries of reception as both a local and a global phenomenon Individually and cumulatively they actively engage with the question of how to marshal the classical past in our efforts to respond to the challenges of our mutable contemporary world
