Kingship and Propaganda Suzanne F. Cawsey, 2002-07-04 In the thirteenth and fourteenth centuries the Crown of Aragon was a rapidly expanding and powerful political unit with an original form of representative government Throughout this period a series of energetic and talented rulers sought to maintain royal authority and govern their realms effectively Their persuasive rhetoric and that of their advisers is preserved in the archives of the Crown of Aragon in Barcelona which provide a rich and under exploited vein of source material for historians There are long letters to their subjects historical works and the proceedings of the cortes

III Congreso de historia de la corona de Aragón dedicado al período comprendido entre la muerte de Jaime I y la proclamación del rey don Fernando de Antequera: Memorias, 1923 **Conflict in Fourteenth-Century Iberia** Donald J. Kagay, L.J. Andrew Villalon, 2021-06-17 In Conflict in Fourteenth Century Iberia Kagay and Villalon trace the complicated economic military political and social background of the relationship of Iberia's two greatest Christian states of the fourteenth century Castile and the Crown of Aragon and their rulers Pedro I r 1350 1366 69 and Pere III r 1336 1387 Besides chapters discussing the War of the Two Pedros 1356 1366 and the Castilian Civil War 1366 1369 the authors provide extended treatments of the strategical and tactical elements of the conflicts the parliamentary diplomatic and governmental developments that occurred because of the conflicts as well as their social and political aftermaths This work along with authors earlier book on the battle of Nájera 1367 provides a much needed review of Iberia's violent fourteenth century

Negotiating Cultures Robert Ignatius Burns, Paul Edward Chevedden, 1999 Recently recovered Arabic Latin interlinear treaties between James the Conqueror of Arago Catalonia and the Muslims of Mediterranean Spain illumine that hard fought crusade 1225 1276 its many Islamic and European contexts and the radically opposed mentalities involved

The Hundred Years War L. J. Andrew Villalon, Donald J. Kagay, 2005 This work the first of a two volume set brings together essays of European and American scholars on the wider regional and topical aspects of the Hundred Years War as well as articles that revisit questions posed and supposedly solved by traditional Hundred Years War scholarship A Forgotten Community Isabel O'Connor, 2021-07-19 This book provides the first analysis of the evolution of the Mudejar of conquered Muslim community of Xàtiva from its foundation after the Christian conquest in 1244 until 1327 Using the Mudejar revolt of 1276 as a turning point it examines the political social economic and religious foundations of the community and compares the status of the Mudejar generation of the conquest with later generations An analysis of the increased Christian acculturative pressure on the Mudejars shows that the Mudejars of Xàtiva did not remain passive but responded with emigration and frequent appeals to the crown Based on extensive archival research it provides a much needed study of the largest and most important Mudejar community in the kingdom of Valencia **To Live Like a Moor** Olivia Remie Constable, 2018-02-02 To Live Like a Moor traces the many shifts in Christian perceptions of Islam associated ways of life

which took place across the centuries between early Reconquista efforts of the eleventh century and the final expulsions of Spain's converted yet poorly assimilated Morisco population in the seventeenth century.

War, Government, and Society in the Medieval Crown of Aragon Donald J. Kagay, 2024-10-28 The focus of this collection of articles by Donald J. Kagay is the effect of the expansion of royal government on the societies of the medieval Crown of Aragon. He shows how the extensive episodes of warfare during the 13th and 14th centuries served as a catalyst for the extension of the king's law and government across the varied topography and political landscape of eastern Spain. In the long conflicts against Spanish Islam and neighbouring Christian states, the relationships of royal to customary law, of monarchical to aristocratic power, and of Christian to Jewish and Muslim populations all became issues that marked the transition of the medieval Crown of Aragon to the early modern states of Catalonia, Aragon, and Valencia, and finally to the modern Spanish nation.

Queenship and Political Power in Medieval and Early Modern Spain Theresa Earenfight, 2017-03-02 Unlike empresses in Germany and queens in England and France, the lives and political careers of most Iberian queens remain largely unknown to non-specialists. In this collection, Theresa Earenfight brings together new research on medieval and early modern Spanish queens that highlights the distinctive political culture that resulted in forms of queenship similar to yet also substantially different from that of northern Europe. The essays consider three aspects of queenship and politics: the institutional foundations and practice of politics; the politics of religion and religious devotion; and the literary and artistic representations of queenship and power. Late medieval queens, because they often occupied prominent and powerful offices such as the regency in Castile and Portugal and the Lieutenancy in the Crown of Aragon, exemplify a unique form of queenship that can best be described as a political partnership. Habsburg queens and empresses, often excluded from such official political roles, were less publicly visible but their power as partner to the king, although shrouded, remains potent. Their political careers were the result of two forces: first, military circumstances brought about by territorial expansion, conquest, and second, a political culture that did not explicitly prohibit queens from active participation in the governance of the realm. The essays in this collection, by both newer and well-established scholars, demonstrate the range and depth of current research on Iberian queenship and prompt a re-examination of long-held assumptions about women and the exercise of power in pre-modern Spain.
