Interplay of Biology and Experience: The Evolution of Personal Identity

Personality is what separates us from one another and makes us distinct and unique. It makes us who we are. Personality can be changed, developed, grown, and gained. According to the 16 Personalities Assessment Report, I am an ISFJ and a "Defender." As an ISFJ, I am 71% introverted, 72% observant, 82% feeling, 71% judging, and 86% turbulent. Believe personalities are learned through experiences, but they are also genetic and seen even from early childhood. Throughout my childhood, I was a middle child as well as the oldest daughter in my family. The children in my family were raised at home as well as homeschooled for much of our education. I believe these unique childhood experiences shaped me and my personality to be more caring, introverted, and emotionally available to other people.
