Climate Change 2021 - The Physical Science Basis Intergovernmental Panel on Climate Change (IPCC), 2023-07-26 The Working Group I contribution to the Sixth Assessment Report of the Intergovernmental Panel on Climate Change IPCC provides a comprehensive assessment of the physical science basis of climate change It considers in situ and remote observations paleoclimate information understanding of climate drivers and physical chemical and biological processes and feedbacks global and regional climate modelling advances in methods of analyses and insights from climate services It assesses the current state of the climate human influence on climate in all regions future climate change including sea level rise global warming effects including extremes climate information for risk assessment and regional adaptation limiting climate change by reaching net zero carbon dioxide emissions and reducing other greenhouse gas emissions and benefits for air quality The report serves policymakers decision makers stakeholders and all interested parties with the latest policy relevant information on climate change Available as Open Access on Cambridge Core [Physical Oceanography Processes at Eastern Boundary Upwelling Systems](#) Francisco Machin, Jose Gomez-Valdes, 2023-12-29 Eastern boundary upwelling systems EBUS have historically received attention from the scientific community due to their impact on the economic development of these highly productive systems Remote sensing numerical modeling and in situ observations have increased their spatial and temporal resolutions during the last 40 years in their strategy to provide reliable products about the actual state of the ocean The assembly of several data sources currently constitutes an opportunity to increase our knowledge about the present and future state of the relatively narrow and highly variable EBUS The primary forcing mechanism in the upwelling regions is the wind stress in areas close to the coast Long term trends in wind intensity in upwelling areas present considerable uncertainties as the different wind databases produce divergent results On the other hand although the effect of climate change in the interior ocean is increasing temperatures in upwelling areas the long term trends seem to be in the opposite direction Hence assessing the long term impact of the environmental conditions on upwelling development

represents a major challenge for the scientific community This special issue aims to discuss the state of the art understanding of dynamical processes governing the ocean at the eastern boundary upwelling systems in a changing ocean

The Place of Stone Douglas Hunter, 2017-08-04 Claimed by many to be the most frequently documented artifact in American archeology Dighton Rock is a forty ton boulder covered in petroglyphs in southern Massachusetts First noted by New England colonists in 1680 the rock's markings have been debated endlessly by scholars and everyday people alike on both sides of the Atlantic The glyphs have been erroneously assigned to an array of non Indigenous cultures Norsemen Egyptians Lost Tribes of Israel vanished Portuguese explorers and even a prince from Atlantis In this fascinating story rich in personalities and memorable characters Douglas Hunter uses Dighton Rock to reveal the long complex history of colonization American archaeology and the conceptualization of Indigenous people Hunter argues that misinterpretations of the rock's markings share common motivations and have erased Indigenous people not only from their own history but from the landscape He shows how Dighton Rock for centuries drove ideas about the original peopling of the Americas including Bering Strait migration scenarios and the identity of the Mound Builders He argues the debates over Dighton Rock have served to answer two questions Who belongs in America and to whom does America belong [Carbon Bridge to the Arctic](#) Marit

Walt,2019-12-12 This book is a collection of chapters based on original research dealing with issues of discipline and disciplinary practices in educational institutions The aim of the book is to provide a scholarly and scientific perspective on the current state of discipline and disciplinary practices in schools and tertiary education settings The issue of discipline is investigated from diverse paradigmatic and methodological perspectives presenting empirical as well as also philosophical research The empirical perspective includes quantitative positivistic qualitative interpretive and mixed methods pragmatic designs and worldviews This book offers a ground breaking contribution to the field of learner and student discipline with insights into disciplinary practices and issues in educational institutions not hitherto researched such as Technical Vocational Education and Training colleges and universities **The National Agricultural Directory 2009** ,2009 **The Politics of**

Potential Michelle Pentecost,2024-01-12 In The Politics of Potential physician anthropologist Michelle Pentecost investigates The First 1000 Days an early life intervention project that seeks to end child malnutrition in South Africa the ways in which this program has been adopted and how it impacts child bearing women in South Africa in powerfully gendered and racialized ways **Working with indigenous knowledge** Fhumulani M. Mulaudzi,Rachel T. Lebese,2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timeous and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu Indigenous knowledge has remained overlooked and undermined for a very long time and the information remains untapped in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research

Echoes of Africa's Past. Archaeological explorations in the Anthropocene Savino di Lernia, 2025-05-30 Marking the 70th anniversary of the Libyan Italian archaeological Mission in the Tadrart Acacus and Messak this volume offers a multidisciplinary reflection on Africa's deep past and its enduring legacies in the Anthropocene By tracing the echoes of human environment interactions across time it highlights how archaeological research continues to reshape our understanding of adaptation resilience and transformation in African societies Drawing on interdisciplinary approaches including palaeoecology bioarchaeology rock art analysis the archaeology of food production and their various connections and networks this book challenges outdated Eurocentric narratives by foregrounding African agency and complexity Key themes include among others the Holocene environmental changes that influenced settlement patterns the significance of rock art in interpreting past belief systems and the impact of colonial trade and imperial expansion on indigenous communities Echoes of Africa's Past serves as a resource for archaeologists historians anthropologists and heritage scholars offering fresh perspectives on Africa's dynamic past and its relevance to debates on sustainability and cultural heritage in the Anthropocene Archaeological knowledge is incremental and hard won It is assembled through time intensive study of fragmentary evidence and its corpus represents intergenerational effort Though sometimes based on the study of stones our interpretations are not written in them Our working hypotheses typically run ahead of the evidence needed to assess them Expanded investigations new methods and changing premises compel revision and sometimes outright rejection of earlier ideas Typological aids deemed useful by earlier generations may outlive their usefulness at the same time as the evidence they organize remains pertinent and available for rethinking The cumulative character of archaeological knowledge enables scalar perspectives across space and through time casting what we know of one location in relief through comparison to others These revisions rethinkings and scalar reflections encourage us to appreciate the complexity and diversity of past contexts as amply illustrated in contributions to this volume In short resuscitating echoes of Anthropocene Africa is painstaking work In this way and others archaeology is and should be slow science Ann B Stahl University of Victoria BC Canada

Monogenetic Volcanism K. Németh, G. Carrasco-Núñez, J.J. Aranda-Gómez, I.E.M. Smith, 2017-06-20 The nature and origin of the small scale volcanic systems generally referred to as monogenetic have enjoyed an elevated level of interest during the past decade There has been recognition that their ostensibly simple volcano types are a window into the nature of explosive volcanism landscape evolution and the processes of magma generation in the Earth's upper mantle In the past few years major conferences have offered specialized technical sessions dealing with monogenetic volcanism and there have been thematic conferences such as the IAVCEI International Maar Conference series which have provided a focus for discussion of volcanological and geochemical aspects of small scale basaltic volcanism Many new aspects of monogenetic volcanism have emerged and have clearly demonstrated that this

volcanism can be very complex on a fine scale This book is a collection of papers arising from two recent Maar Conferences the fifth in Queretaro Mexico and the sixth in Changchun China and serves as a snapshot of current research on monogenetic volcanism

Climate Change 2022 - Impacts, Adaptation and Vulnerability Intergovernmental Panel on Climate Change (IPCC), 2023-06-22 The Working Group II contribution to the Sixth Assessment Report of the Intergovernmental Panel on Climate Change IPCC provides a comprehensive assessment of the scientific literature relevant to climate change impacts adaptation and vulnerability The report recognizes the interactions of climate ecosystems and biodiversity and human societies and integrates across the natural ecological social and economic sciences It emphasizes how efforts in adaptation and in reducing greenhouse gas emissions can come together in a process called climate resilient development which enables a liveable future for biodiversity and humankind The IPCC is the leading body for assessing climate change science IPCC reports are produced in comprehensive objective and transparent ways ensuring they reflect the full range of views in the scientific literature Novel elements include focused topical assessments and an atlas presenting observed climate change impacts and future risks from global to regional scales Available as Open Access on Cambridge Core
