Secularism and the Crisis of Minority Identity in Postcolonial Literature Roger McNamara, 2018-06-06 Secularism and the Crisis of Minority Identity in Postcolonial Literature examines how writers from religious and ethnic minority communities Anglo Indians Burghers Dalits Muslims and Parsis in India and Sri Lanka engage secularism through novels short stories and autobiographies Given the rise of Hindu nationalism in India and Sinhala Buddhist nationalism in Sri Lanka it would seem obvious that minorities would rally around secularism the separation of church and state However this book argues that the relationship between minorities and secularism is extremely ambivalent On the one hand it shows how writers belonging to oppressed communities can deploy secularism as a mode of critique secular criticism to challenge the ideologies of dominant groups the nation upper castes and religious hierarchies On the other hand it examines how these writers reveal that other aspects of secularism secularization and secular time are responsible for creating essentialized identities that have not only exacerbated relationships between majorities and minorities and between minority groups but have also created tension within minority groups themselves Turning to aesthetics and religious faith these writers attempt to undermine secular social and cultural structures that are responsible for this crisis of minority identity *Uncommon Cause* John Mathias, 2024-05-02 How can activists strike a balance between fighting for a cause and sustaining relationships with family friends and neighbors *Uncommon Cause* follows environmental justice activists in Kerala India as they seek out avoid or strive to

overcome conflicts between their causes and their community ties John Mathias finds two contrasting approaches each offering distinct possibilities for an activist life One set of activists repudiates community ties and resists normative pressures for them environmental justice becomes a way of transcending all local identities and affiliations even humanity itself Other activists seek to ground their activism in community belonging to fight for their own people Each approach produces its own dilemmas and offers its own insights into ethical tensions we all face between taking a stand and standing with others In sharing Kerala activists diverse stories *Uncommon Cause* offers a fresh perspective on environmental ethics showing that environmentalism even as it looks beyond merely human concerns is still fundamentally about how we relate to other people
