Transformation of Higher Education Institutions in Post-Apartheid South Africa Chaunda L. Scott, Eunice N. Ivala, 2019-02-21 This book outlines successful transformation strategies and efforts that have been developed to assist the South African higher education system in moving beyond its post apartheid state of being Through case studies authored by South African higher education scholars and scholars affiliated with South African institutions this book aims to highlight the

status of transformation in the South African higher education system demonstrate the variety of transformation initiatives used in academic institutions across South Africa and offer recommendations to further advance this transformation. Written for scholars and advanced students of higher education in international settings, this volume aims to support quality research that benefits the demographic composition of South African academics and students and offers lessons that can inform higher education transformation in similarly multicultural societies.

**Self-Directed Learning** (Prof.) Elsa Mentz, Charlene du Toit-Brits, Jean Henry Blignaut, Elize Vos, 2024-12-20. This scholarly book provides an in-depth analysis of self-directed learning (SDL) within contexts of curriculum praxis and scholarship. The book presents original research from multiple authors which provides diverse perspectives and methodologies for enhancing understanding of SDL. It primarily focuses on incorporating SDL into curriculum development and emphasises the significance of scholarly research in designing effective curricula. The book explores the integration of technology in learning and adapts instructional strategies to meet the evolving demands of higher education and school environments. Inspired by constructivism, socio-constructivism, and context-based learning theories, the text presents practical strategies for educators. Key topics include the implications of artificial intelligence strategies for reducing procrastination, fostering SDL in homeschooling, enhancing SDL attributes, preparing teachers for self-direction, facilitating curriculum transformation, and incorporating indigenous knowledge. The book also covers teaching climate change education and integrating educational robotics. *Self-Directed Learning: Curriculum implementation praxis and scholarship in context* is invaluable for scholars and researchers in education, providing empirical findings and practical insights to inspire further research. It aims to equip learners with 21st-century skills, preparing them for the challenges of the Fourth Industrial Revolution.
