Physical Science Trial Memorandum Gauteng Province

Christian G. Meyer

Physical Science Trial Memorandum Gauteng Province:

Growing Up in an Urbanizing World Louise Chawla, 2016-05-13 Half the world's children live in cities and the proportion is growing. Their environment critically determines their futures and the world they will make as adults. This text by an interdisciplinary team of international child environment authorities explores how crucial the relationship of the young and their surroundings is. Covering eight countries, it shows the enormous benefits for them, for the wider society and for the future of involving children, especially from underprivileged communities, in planning and implementing urban improvements. It continues and updates Kevin Leech's pioneering 1970s MIT project *Growing Up in Cities*. Index Medicus, 2002-07 Vols for 1963 include as pt 2 of the Jan issue Medical subject headings. **Who's who of Southern Africa**, 2001 Vols for 1967-70 include as a section Who's who of Rhodesia, Mauritius, Central and East Africa. *Growing Up in an Urbanising World* Louise Chawla, Unesco, 2002. More than half of all children in industrialised countries live in urban areas and the same will be true in the developing world in the near future. Yet by almost all indicators cities are failing to meet the needs of young people, prejudicing their chances as adults. Written by a team of experts from the fields of urban planning, architecture, geography, anthropology, psychology and environmental education, this book analyses the results of a UNESCO project which looks at the effects on young people of their urban surroundings based on case studies from eight countries including Australia, India, South Africa, the UK and the USA. This study places a new emphasis on the active participation of young people in the planning, design and implementation of urban improvements and recommends policies and practices that will make cities more responsive to the needs of children, adolescents and their families. *Dissertation Abstracts International*, 2005. **Senior physical science 9 [braille]**. h. n Pienaar, 1988.
