insidious form of erroneous thinking that undermines its own possibility of meaning It comes about as a result of the pervasive human compulsion to seek to transcend the limits of possible reference and meaning Based on original research and rigorous analysis combined with extensive scholarship the Critique of Impure Reason develops a self validating method that makes it possible to recognize correct and eliminate this major and pervasive form of fallacious thinking In so doing the book provides at last provable and constructive solutions to a wide range of major philosophical problems CONTENTS AT A GLANCE Preface Foreword by Carl Friedrich von Weizsäcker Acknowledgments Avant propos A philosopher s rallying call Introduction A note to the reader A note on conventions PART I WHY PHILOSOPHY HAS MADE NO PROGRESS AND HOW IT CAN 1 Philosophical psychological prelude 2 Putting belief in its place Its psychology and a needed polemic 3 Turning away from the linguistic turn From theory of reference to metalogic of reference 4 The stepladder to maximum theoretical generality PART II THE METALOGIC OF REFERENCE A New Approach to Deductive Transcendental Philosophy 5 Reference identity and identification 6 Self referential argument and the metalogic of reference 7 Possibility theory 8 Presupposition logic reference and identification 9 Transcendental argumentation and the metalogic of reference 10 Framework relativity 11 The metalogic of meaning 12 The problem of putative meaning and the logic of meaninglessness 13 Projection 14 Horizons 15 De projection 16 Self validation 17 Rationality Rules of admissibility PART III PHILOSOPHICAL APPLICATIONS OF THE METALOGIC OF REFERENCE Major Problems and Questions of Philosophy and the Philosophy of Science 18 Ontology and the metalogic of reference 19 Discovery or invention in general problem solving mathematics and physics 20 The conceptually unreachable The far side 21 The projections of the external world things in themselves other minds realism and idealism 22 The projections of time space and space time 23 The projections of causality determinism and free will 24 Projections of the self and of solipsism 25 Non relational agentless reference and referential fields 26 Relativity physics as seen through the lens of the metalogic of reference 27 Quantum theory as seen through the lens of the metalogic of reference 28 Epistemological lessons learned from and applicable to relativity physics and quantum theory PART IV HORIZONS 29 Beyond belief 30 Critique of Impure Reason Its results in retrospect SUPPLEMENT The Formal Structure of the Metalogic of Reference APPENDIX I The Concept of Horizon in the Work of Other Philosophers APPENDIX II Epistemological Intelligence References Index About the author *Books in Print Supplement* ,1994 *Scientific and Technical Books and Serials in Print* ,1989 **American Book Publishing Record** ,2005
