FET Colleges South Africa. Department of Education, 2007 **Turfloop a Conscious Pariah** Kanyane Chris

Kanyane, Chris Kanyane, 2010 This book provides reflections on the butterfly effect on how Turfloop brought in the Age of Barack Obama What is the Age of Barack Obama To paraphrase Dr Ineke Van Kessel a prominent historian at the Leiden University in the Netherlands The University of the North also known as Turfloop played a vital role as the center of communication coordination ideological direction the engine of bringing the new South Africa was University of the North We approached this book like detectives Fortunately in our detective work we were not concerned with a particular agenda we were not trying to prove that a certain method of thinking was right or wrong We didn't want this book to be filled with personal opinions and biases We wanted this book to be juicy and accessible to every person who reads it in whatever corner of the world We have to back up our story with facts of course and get other people to do practical analysis and later we added our own perspectives When we completed writing this book we passed it around amongst critical people spread across the globe Most of them said that the book is somehow highbrow and at the same time all together lowbrow which came as a compliment A lot of people are somewhere in between We want this book to embody that because there are many people there we want them to appreciate this book **Cases on Transnational Learning and Technologically Enabled**

Environments Mukerji, Siran, Tripathi, Purnendu, 2010-03-31 This book offers case studies on divergent themes addressing the core perspective of technological adaptability and transnational learning Provided by publisher Recalibrating teacher training in African higher education institutions Sifiso Sibanda, Gideon (Deon) P. van Tonder, Washington T. Dudu, 2023-03-01 This book critically examines the role of governments in promoting parity during and in post pandemic education This comes from the realisation that the pandemic has deepened the crisis by depleting the meagre resources that African countries might have devoted to normative educational practices where those on the margins would have been pushed further behind while the privileged would have been further initiated into the cultural and capital flows of private schools and historically research intensive institutions of higher learning This has far reaching implications for the education of underprivileged citizens and education particularly modes and modalities of delivery has to be reimaged to subvert the challenges wrought by the pandemic This book significantly bridges the gap between the pre and post COVID 19 pandemic pedagogical practices and the erstwhile modalities that have been resilient over time The book focuses on ways to stave off pedagogical challenges that face countries as the global pandemic makes its mark *Educational Leadership for Transformation and Social Justice* John Ambrosio, 2016-11-03 Educational Leadership for Transformation and Social Justice examines the relationship between the lived experiences of educational leaders at the University of the Free State in South Africa and how they think about and practice leadership for transformation and social justice Based on biographical information public speeches published writings and in depth semi structured face to face interviews the book presents and analyses seven chapter length narratives

of these leaders This book explores how some leaders at the University of the Free State from the vantage point of various racialized and gendered identities and generational experiences conceptualize and enact leadership for transformation and social justice Ambrosio argues that there are certain values beliefs concepts principles and ways of thinking that cut across their experiences and demographic differences The narratives are presented in the leaders own words and describe how their lived experiences shaped their values and identities and inform how they think about and practice leadership for transformation and social justice One convergence that emerged among these leaders is that their leadership is an extension of who they are of their core values identities and ethical commitments Another is that they are motivated by visions of change that go beyond the University by bigger dreams that infuse their work with meaning and purpose With its in depth analysis of the narratives this book will provide educational leaders who have an orientation towards transformation and social justice with insights that enable them to think differently about how to make the policies programs and institutional culture of their own universities more equitable and just It will appeal to academics researchers and postgraduate students in the fields of education educational justice higher education educational leadership and change social justice and racial justice

Working with indigenous knowledge Fhumulani M. Mulaudzi,Rachel T. Lebese,2022 The aim of the book is to assist both local and international scholars in articulating the scholarly discourse on indigenous health attitudes practices and experiences The indigenous lens that was used to generate and disseminate indigenous knowledge in this book will strengthen indigenous scholarship thus making it accessible to a wider audience In addition the information shared in this book will add value for scholars and assist them with the indigenous knowledge needed to address sustainable development goals This book is timeous and topical as the discourse on the decolonisation of the curriculum is widely debated in the higher education space The discourse on the scholarship of indigenous knowledge as the tacit local knowledge that stems from cultural practices within communities has not been well articulated in the current health science education milieu Indigenous knowledge has remained overlooked and undermined for a very long time and the information remains untapped in local communities The scholars who conducted the research on which this book is based unearthed a wealth of knowledge which was tacit in nature and translated it into implicit knowledge that can be documented and shared with other scholars globally This knowledge will assist health care scholars in benefiting from knowledge practices and cultural beliefs that will assist them in health care planning teaching evidence based practice and further research *A Life in Moments* Tshologa

The book will be highly relevant to students, scholars and researchers in the fields of education and sociology, particularly those with an interest in graduate employability.

International Handbook of Universities, 2010 *A Companion to African History* William H. Worger, Charles Ambler, Nwando Achebe, 2018-09-17

Covers the history of the entire African continent from prehistory to the present day. *A Companion to African History* embraces the diverse regions, subject matter and disciplines of the African continent while also providing chronological and geographical coverage of basic historical developments. Two dozen essays by leading international scholars explore the challenges facing this relatively new field of historical enquiry and present the dynamic ways in which historians and scholars from other fields such as archaeology, anthropology, political science and economics are forging new directions in thinking and research. Comprised of six parts, the book begins with thematic approaches to African history, exploring the environment, gender and family, medical practices and more. Section two covers Africa's early history and its pre-colonial past, early human adaptation, the emergence of kingdoms, royal power and warring states. The third section looks at the era of the slave trade and European expansion. Part four examines the process of conquest, the discovery of diamonds and gold, military and social response and more. Colonialism is discussed in the sixth section with chapters on the economy transformed due to the development of agriculture and mining industries. The last section studies the continent from post World War II all the way up to modern times. Aims at capturing the enthusiasms of practicing historians and encouraging similar passion in a new generation of scholars. Emphasizes linkages within Africa as well as between the continent and other parts of the world. All chapters include significant historiographical content and suggestions for further reading. Written by a global team of writers with unique backgrounds and views. Features case studies with illustrative examples. In a field traditionally marked by narrow specialisms, *A Companion to African History* is an ideal book for advanced students, researchers, historians and scholars looking for a broad yet unique overview of African history as a whole.
