Professional Photocopier Troubleshooting and Repair Eric Kuaimoku,1993 This book will give technicians and students all the background information and practical know how they need to service and repair a full line of personal and business photocopiers *Talking about Machines* Julian E. Orr,2016-10-01 This is a story of how work gets done It is also a study of how field service technicians talk about their work and how that talk is instrumental in their success In his innovative ethnography Julian E Orr studies the people who repair photocopiers and shares vignettes from their daily lives He

characterizes their work as a continuous highly skilled improvisation within a triangular relationship of technician customer and machine The work technicians do encompasses elements not contained in the official definition of the job yet vital to its success Orr s analysis of the way repair people talk about their work reveals that talk is in fact a crucial dimension of their practice Diagnosis happens through a narrative process the creation of a coherent description of the troubled machine The descriptions become the basis for technicians discourse about their experience and the circulation of stories among the technicians is the principal means by which they stay informed of the developing subtleties of machine behavior Orr demonstrates that technical knowledge is a socially distributed resource stored and diffused primarily through an oral culture Based on participant observation with copier repair technicians in the field and strengthened by Orr s own years as a technician this book explodes numerous myths about technicians and suggests how technical work differs from other kinds of employment
