establish good habits or that open them up to new knowledge of English composition 6 The teacher's time is precious An instructor should not be expected to spend it on a theme that the student has not put into the best condition of which they are capable 7 It is best to begin with a course with freshmen slowly even in an elementary manner with something that is easily within their comprehension Language Teacher Cognition Li Li, 2019-10-11 This book explores the topic of teacher cognition making use of sociocultural theory as a framework to understand what teachers know think believe and do in their professional contexts through applied conversation analysis The author examines what teaching and learning mean to teachers by analyzing the interactional work they do with their students considering when and why teachers make interactive decisions as well as how they utilize new technological tools to address their pedagogical objectives After discussing how teachers construct identities and display emotions in the classroom she presents suggestions for language teacher education and development pedagogy improvement and teacher knowledge This book will be of interest to language teachers and teacher trainers as well as students and scholars of applied linguistics and sociocultural theory **London**
