**Between Geography and History** Katherine Clarke, 2000-01-13 The late Hellenistic period witnessed the rise of an imperial power whose dominion extended across almost the whole known world The Roman empire radically affected geographical conceptions evoking new ways of describing the earth and of constructing its history In this book the writings of three literary figures of the age are explored the History of Polybius two fragmentary works of Posidonius and the universal Geography of Strabo Analysis in terms of the philosophical concepts of time and space reveals the generic fluidity of such geographical and historical works Furthermore these broadly conceived accounts are shown to be appropriate literary media for the response to Roman power They use but transform pre existing Greek traditions in order to describe the new world of Rome making them fitting products of a transitional age This book provides a new approach to Roman imperialism by considering its impact on historiography and geographical thought A biblical cyclopaedia, or, Dictionary of Eastern antiquities, geography, natural history, sacred annals and biography, theology and biblical literature, illustrative of the Old and New Testaments John Eadie, 1901 **Nigerian Geographical Teachers Journal** ,2002 **Kubanni Journal of Arts and Social Sciences** ,2012 *A New and Complete Dictionary of Arts and Sciences* Society of Arts (Great Britain).
