India's Fiscal Policy Supriyo De, 2017-02-07 This book seeks to balance normative prescriptions on fiscal policy with its practical aspects in the context of the Indian scenario. In doing so it brings together views of leading experts from academic and policy spheres. It highlights the specificities of Indian fiscal policy and studies current issues like the impact of development expenditures, the Goods and Services Tax (GST), the challenge of reducing subsidies, and different aspects of political economy. India's Fiscal Policy discusses rapid developments in the field following the fiscal stimulus of 2008, subsequent attempts at fiscal consolidation, and the formation of the NDA government. It focuses on policy and political considerations and adopts a wider approach for the analysis of fiscal policy by taking into consideration aspects such as the effectiveness and targeting of social expenditures which are essential for a critical analysis of the Indian policy matrix.

GST and Its Aftermath Govind Bhattacharjee, Debasis Bhattacharya, 2018-01-29 A thought provoking assessment of the major tax reform in India and its consequences. *Economic Survey*, 2015. **Globalization and India's Economic Integration** Baldev Raj Nayar, 2014-11-12 A common critique of globalization is that it causes economic segmentation and even disintegration of the national economy. Quite to the contrary, Baldev Raj Nayar provides a thorough empirical treatment of India's political economy that challenges this critique by demonstrating that on balance both state and market have functioned to attenuate such a disintegrative impact and to accentuate economic integration. The active role of the Indian state in the areas of economic planning, fiscal federalism, and tax reform has resulted in improved economic integration and not increased segmentation. Similarly, his investigation of trade, investment, entrepreneurship, and migration suggests tendencies inherent in the market in favor of economic integration, especially when assisted by the state. While globalization has its benefits such as higher economic growth and costs such as external shocks, Nayar's findings show that India has benefited from globalization more than it has been victimized by it. Globalization and India's Economic Integration shows how globalization's pressures favoring efficiency paradoxically induced the state to push for consolidation on a pan-Indian scale in the area of fiscal federalism and to advance the cause of the common market through reforming the indirect tax system. Meanwhile, the state has pressed forward with social inclusiveness as never before in its economic planning. For another, the market too has been instrumental because of its widened scope and its inherently expanding character in strengthening economic integration through trade expansion, diffusion of industry, and increased inter-state migration. Nayar's groundbreaking work will interest students, scholars, and specialists of India, South Asia, globalization, and political economy. Prāpti Bajaj India, 2013.
