<https://www.clevelandclinic.com/health/body/body/2022/nervous-system>

Introduction: The nervous system is a complex network of nerves and cells that transmit signals between different parts of the body. It plays a vital role in controlling and coordinating the body's functions. In this webquest, you will explore the Cleveland Clinic's website to learn more about the nervous system.

Task 1: Nervous System Overview

1. Read the introduction to the nervous system on the web page. List three key functions of the nervous system mentioned on the web page.

Task 2: Components of the Nervous System

On the same web-page, look for information about the main components of the nervous system. List the three main components of the nervous system.

Task 3: The Brain

Find the section of the webpage that discusses the brain. Name the three main parts of the brain and briefly describe their functions.
