117 NAGLIERI ABILITY INDEX

This student's score has been placed on the graph to show how it relates to the scores of other students of the same age. Most children's scores will fall between 90 and 110. Scores in this range are considered to be average. Fewer children will have scores that fall between 70 to 89 and 111 to 130, and an extremely small number of children will have scores that fall below 70 or above 130. Use the Qualitative Description on the graph to help you understand where the student's score falls.

88 PERCENTILE RANK

Percentile Ranks range from a low of 1 to a high of 99. This score is used to compare the student's performance to that of a national sample of students of the same age. For example, if a child who is six years old has a Percentile Rank of 75, this means the student scored as well as or higher than 75 percent of six year old students who were tested. Please note that Percentile Rank and Percent Correct represent two different performance measurements and have different interpretations.
