The Comprehensive Preschool Curriculum Kay M. Albrecht, Linda G. Miller, 2004 Designed for teachers of three to five year olds Innovations the

comprehensive preschool curriculum focuses on encouraging facilitating and stimulating a child's development. It addresses the major developmental milestones that all preschool children face such as adjusting to school, making friends, communicating, and problem solving. Innovations in the comprehensive preschool curriculum is a unique combination of the practical and theoretical. Discussions of child development theories are accompanied by curriculum plans for 14 different areas including science, discovery, sensory, art, literacy, writing, math, manipulatives, and movement outdoors among others. The book combines these elements in a way that provides a foundation for beginning teachers, support for experienced teachers, and a complete program for every teacher. Monjan, Suzanne M. Gassner, 2014-05-19 *Critical Issues in Competency Based Education* focuses on the primary facets of competency based education, emphasizing the setting of goals and assessment procedures in education. The manuscript first highlights the value of setting objectives in the educational process, including art appreciation and participatory citizenship. The text then underscores the importance of behaviorally defined goals and evaluation of competencies, as well as planning a course in research design and accuracy and significance of assessment procedures. The publication examines the impact on the educational community of behaviorally defined goals, clarification against specification of standards, and the role of students in choosing educational pathways. The possible effects for students, faculty, and administrators and impacts of the standard statements on the education and evaluation process are elaborated. The book also takes a look at process oriented and core competencies, early childhood education competencies, and elective competencies. The text is highly recommended for readers interested in the facets of competency based education. **Service-Learning in Occupational Therapy Education** Kathleen Flecky, Lynn Gitlow, 2009-11-13 *Service Learning in Occupational Therapy Education: Philosophy and Practice* explores the use of service learning as a pedagogical tool for educators to enhance occupational therapy students' knowledge and skills in the areas of critical thinking and problem solving, diversity, health promotion, community issues, social justice, and citizenship. These areas are representative of core competencies needed by occupational therapy professionals for occupation based practice in the 21st century. This text describes philosophical and theoretical principles of service learning in relationship to occupational therapy, philosophical and pedagogical traditions.
