Humankind is the product of millions of years of evolution The question is has human evolution reached a peak or can we develop even further Many signposts indicate that the answer is yes we can go further While the bulk of human evolution has been a blind unconscious process rather than sit back and allow nature to take its course it is time to take matters into our own hands and usher in the next stage of human progress Thousands of individuals have attained this conscious evolution of the selfenlightenment over the centuries Defying the conventional wisdom of scientists and those who hold to conventional forms of religion these individuals have followed well trodden paths toward illumination proving that neither life nor nature can be bound by any scientific theory or religious dogma This book is oriented toward those who count themselves among the free thinkers of the world those who are willing to explore the reality of the unknown rather than deny the existence of regions of the mind body and spirit simply because they do not conform to preconceived ideas This does not mean that our essence our basic identity has to be replaced or destroyed Rather it implies re examining ourselves so that we are able to conceive of a universe that is infinitely more complex and varied than we have imagined To this end the book employs both poetry and discourses to awaken the dormant higher self FURTHER EVOLUTION IS POSSIBLE PROVIDED WE ARE WILLING TO EMBARK ON THE QUEST FOR truth *Perfect Sight Without Glasses* William H.
