Ultrasound Program Management Vivek S. Tayal, Michael Blaivas, Troy R Foster, 2018-02-01 This book addresses the wide range of issues that face the program leader from how to choose a site and how to negotiate for equipment to how to determine staffing requirements and how to anticipate and defuse possible turf issues with other programs and services in the hospital or healthcare facility The early

chapters of this book focus on the leadership of your program whether in your department or institution The second section centers on education at all levels recognizing that smaller machines have made ultrasound available for medical students to advanced practitioners The third section provides detailed logistics on equipment maintenance and safety The fourth section focuses on a quality improvement program and includes a chapter on the workflow process For those with limited budgets we also offer a section on practical operating and educational solutions The fifth section offers insight into hospital level credentialing quality assurance national politics and recent issues with accreditation This is followed by reimbursement and coding The last section covers topics in specialized communities Chapters focus on ultrasound in global health emergency medical services pediatrics critical care community and office based practices Multiple US working documents including checklists graphs spreadsheets tables and policy appendices are included Beholden Susan R. Holman,2015-01-28 Highlighting religion as a factor that can either help or hinder global health and health equity today Susan R Holman explores the intersections of human rights and religion in order to address issues of social justice health economics humanitarian aid human rights theological education and public policy *Departments of Veterans Affairs and Housing and Urban Development, and Independent Agencies Appropriations for 1999* United States. Okpaku,2021-11-02 Over the course of the last decade political and mental entities at large have embraced global mental health the idea that psychiatric health is vital to improved quality of life Physicians globally have implemented guidelines recommended by the National Institute of Mental Health NIMH in 2007 thereby breaking down barriers to care and improving quality of life in areas where these practices have been implemented Programs for training and education have expanded as a result Clinicians benefit more from both local resources in some regions as well as in international collaboration and technological advancements Even amidst all of these positive outcomes clinicians still face some stumbling blocks With worldwide statistics estimating that 450 million people struggle with mental neuropsychiatric and neurological disorders 25 percent of the world s non communicable disease burden rising to these challenges prove to be no small feat even in wealthy Western nations Various articles and books have been published on global mental health but few of them thoroughly cover the clinical research innovative and social implications as they pertain to psychiatry often only one of these aspects is covered A comprehensive text that can keep pace with the rapidly evolving literature grows more and more valuable each day as clinicians struggle to piece together the changes around the world that leave open the possibility for improved outcomes in care This book seeks to boldly rectify this situation by identifying innovative models of service delivery training education research funding and

payment systems that have proven to be exemplary in implementation and scalability or have potential for scalability Chapters describe specific barriers and challenges illuminating effective strategies for improved outcomes This text is the first peer reviewed resource to gather prestigious physicians in global mental health from around the world and disseminate their expertise in the medical community at large in a format that is updateable making it a truly cutting edge resource in a world constantly changed by medical scientific and technological advances Innovations in Global Mental Health is the ultimate resource for psychiatrists psychologists primary care physicians hospitalists policy makers and all medical professionals at the forefront of global mental health and its implications for the future **Departments of**
