BOOK JACKET

US-Mexico Borderland Narratives Rosemary A. King,2000 For over 150 years borderland authors from both Mexico and the United States have developed novels which owe their narrative power to compelling relationships between literary constructions of space and artistic expressions of conflicts characters and cultural encounter This study explores those relationships by analyzing representations of the spaces in which characters function whether barrio ballroom or border city as well as the places characters inhabit relative to the border occupying native or foreign territory traveling temporarily or settling permanently Concomitant with close attention to the conceptualization of space in border literature is a foregrounding of the genres that border writers employ such as historical romance and the Hispanic bildungsroman as well as the literary traditions from which they draw such as travel narratives or utopian literature Assessing geopoetics in border writing from the Mexican American War to the present including writers such as Helen Hunt Jackson Jovita Gonzalez Ernesto Galarza Americo Paredes Harriet Doerr Cormac McCarthy Leslie Marmon Silko and Miguel Mendez provides a paradigm for tracing the development and changes in individual responses to this space as well as a broad range of responses based on class and gender This corpus of literature demonstrates that the various ways in which characters respond to cultural encounter adapting resisting

challenging sympathizing depends on artistic rendering of spaces and places around them Thus the central argument of this project is that character responses to cultural encounters arise out of geopoetics the artistic expression of space and place from the earliest to the most recent border narratives **Southwest Asia** Jayson Gonzales Sae-Saue,2016-06-17 Chicana o literature is justly acclaimed for the ways it voices opposition to the dominant Anglo culture speaking for communities ignored by mainstream American media Yet the world depicted in these texts is not solely inhabited by Anglos and Chicanos as this groundbreaking new book shows Asian characters are cast in peripheral but nonetheless pivotal roles Southwest Asia investigates why key Chicana o writers including Am rico Paredes Rolando Hinojosa Oscar Acosta Miguel M ndez and Virginia Grise from the 1950s to the present day have persistently referenced Asian people and places in the course of articulating their political ideas Jayson Gonzales Sae Saue takes our conception of Chicana o literature as a transnational movement in a new direction showing that it is not only interested in North South migrations within the Americas but is also deeply engaged with East West interactions across the Pacific He also raises serious concerns about how these texts invariably marginalize their Asian characters suggesting that darker legacies of imperialism and exclusion might lurk beneath their utopian visions of a Chicana o nation Southwest Asia provides a fresh take on the Chicana o literary canon analyzing how these writers have depicted everything from interracial romances to the wars Americans fought in Japan Korea and Vietnam As it examines novels plays poems and short stories the book makes a compelling case that Chicana o writers have long been at the forefront of theorizing U S Asian relations **Border Fictions** Claudia Sadowski-Smith,2008 Border Fictions offers the first comparative analysis of multiethnic and transnational cultural representations about the United States borders with Mexico and Canada Blending textual analysis with theories of globalization and empire Claudia Sadowski Smith forges a new model of inter American studies Border Fictions places into dialogue a variety of hemispheric perspectives from Chicana o Asian American American Indian Latin American and Canadian studies Each chapter examines fiction that ranges widely from celebrated authors such as Carlos Fuentes Leslie Marmon Silko and Alberto R os to writers whose contributions to border literature have not yet been fully appreciated including Karen Tei Yamashita Thomas King Janette Turner Hospital and emerging Chicana o writers of the U S Mexico border Proposing a diverse and geographically expansive view of border and inter American studies Border Fictions links the work of these and numerous other authors to civil rights movements environmental justice activism struggles for land and border crossing rights as well as to anti imperialist forms of nationalism in the United States neighboring countries The book forces us to take into account the ways in which shifts in the nature of global relations affect literary production especially in its hemispheric manifestations
