Pine Crossbills Desmond Nethersole Thompson:

Pine Crossbills Desmond Nethersole-Thompson, 2010-11-30 A comprehensive study of Pine Crossbills From mid January to mid April 1935 I was off on my dilapidated bicycle but how different Speyside was from Breckland In late February many crossbills were still in flocks I had to walk and cycle for many miles before finding my first nest in the last week of March when I located a small breeding group in a plantation of old pines close to a keeper's cottage Thenceforward until 1942 I followed the crossbills and slowly began to understand a little about them At first everything was gloriously new I watched my crossbills mating and discovered how subtly a winter flock changed to a mating party and from a mating party to mated groups I studied patterns of territory and dispersion and watched how hens built their nests I sat under trees and I climbed to nests I watched hens brooding and saw cocks feeding them One hen pitched on my fingers and allowed me to catch her I still vividly recall the sharp resinous scent of her body I saw pairs rear their young and followed them and their broods through the forest Soon my notebooks were full but this was only the beginning That extract from the book's first chapter describes how the author began his study of the Scottish pine feeding crossbills having noticed earlier that the calls of crossbills in Rothiemurchus Forest were different from those of the spruce feeding common crossbills he had known in the English Breckland From this study and a quest for the true identity of the Speyside crossbills has emerged that all too rare book a work of scholarship and research that is wholly readable in which the author's delight in his study subject becomes the reader's too

Greenshanks Desmond Nethersole-Thompson, Maimie Nethersole-Thompson, 2010-11-30 Desmond Nethersole Thompson has been studying his favourite bird the greenshank *Tringa nebularia* since May 1932 This book published in 1976 owes much to the interest almost an obsession of the Nethersole Thompson family The two girls and four boys as well as both parents now work as a team in the wild and beautiful north west Highlands of Scotland Greenshanks has drawn heavily on the team's field notebooks In the gneiss country of Sutherland so different from the forest bogs of Spey Valley Fennoscandia and the Soviet Union they have particularly concentrated on the greenshank's displays and breeding food and feeding behaviour and its remarkable voice There can be few long term projects on waders to equal this made by the Nethersole Thompsons and there are valuable specialist contributions by other eminent ornithologists Greenshanks is a major contribution to bird studies and takes its place beside Desmond Nethersole Thompson's four earlier monographs The illustrations in colour and monochrome by Donald Watson have all the veracity and atmosphere that one has come to expect of this gifted artist

Pine Crossbills, 1975 **Crossbills and Conifers** Craig Benkman, 2025-07-15 Crossbills and Conifers explores an intimate natural historical connection revealing why crossbills have become an exemplar of diversification and coevolution Craig Benkman takes readers on his 40 year journey of research and discovery exploring a series of unique and interrelated findings about the behavior ecology evolution and conservation of a remarkable group of birds Key to revealing these insights is the ease with which one can measure how variation in bill structure and conifer cone

structure and phenology influence the efficiency at which crossbills extract seeds from cones Consumer resource interactions are fundamental to much of ecology but such relationships are rarely so readily quantified not least with the coevolutionary arms race driving the evolution of the newly discovered Cassia Crossbill This accessible and handsomely illustrated book will appeal to a wide audience Students of ornithology and evolutionary biology will gain a greater understanding of the value of natural history and especially the utility of knowing when who eats whom and why Bird enthusiasts and naturalists will learn much about the world of crossbills the causes of their diversity which has challenged and inspired many ornithologists and the threats that these birds face **British Birds** ,1988 **The Red Squirrel** Charles Dutton,2004 The Nature of the Cairngorms Philip Shaw,Des B.A. Thompson,2006-06-12 The Cairngorms area is arguably the most significant for nature conservation in the British Isles and contains its largest National Park In this book 35 authors drawing on published and unpublished sources present an up to date review of the area s natural features including plants animals habitats geology and landforms The review falls into three parts The first and largest part describes the area s rich diversity of nature with each chapter summarising recent research findings trends and conservation issues for a different landform habitat or species group The second part considers deer management recreation and projected climate change impacts Part three focuses on rare and threatened species and identifies areas and habitats rich in species for which the Cairngorms are nationally and internationally important **Birds in Scotland** Valerie M. Thom,2010-11-30 The most important work on the birds of Scotland ever published British Birds This comprehensive study and review of the birds in Scotland follows on from where the celebrated two volumes of The Birds of Scotland 1953 by Dr Baxter and Miss Rintoul left off It does more than that however since not only has there been a profound increase in ornithological coverage and data as reflected in the species accounts there have also been great changes in habitat and environment since the days of Baxter there are also brief summaries of earlier data based on the researches of Baxter Rintoul In all 497 species are dealt with The texts of major species accounts are complemented by 173 distribution maps and many tables of relevant data and there are 129 species drawings by a team of artists under the editorship of Donald Watson who also contributes chapter head pieces and other drawings A section of photographs illustrates the varied habitats typical of Scotland today There are further appendices and an extensive bibliography The book will be of great interest to all birdwatchers in Scotland but of special value too to the many thousands of birdwatching visitors from elsewhere in these islands and from countries abroad The Scottish Ornithologists Club for whom the book is published and all whose records and researches made the author s work possible have reason to be proud of Valerie Thom s achievement **Iowa Bird Life** ,1980 The British National Bibliography Arthur James Wells,1968 Birds in the Second World War Nicholas Milton,2022-04-06 A love of birds has always been an important part of the British way of life but in wartime birds came into their own helping to define our national identity One the most popular bird books ever Watching Birds was published in 1940 while songs like There ll be Bluebirds over the White

Cliffs of Dover epitomized the blitz spirit Birds even featured in wartime propaganda movies like the 1941 classic *The First of the Few* starring Leslie Howard where they inspired the design of the Spitfire Along the coast flooding to prevent a German invasion helped the avocet make a remarkable return while the black redstart found an unlikely home in our bombed out buildings As interesting as the birds were some of the people who watched them Matthew Rankin and Eric Duffey counted seabirds while looking for U boats Tom Harrisson the mastermind behind Mass Observation watched people as if they were birds while POW Guy Madoc wrote a truly unique book on Malayan birds typed on paper stolen from the Japanese commandant s office For Field Marshall Alan Brooke Britain s top soldier filming birds was his way of coping with the continual demands of Winston Churchill In comparison Peter Scott was a wildfowler who was roused by Adolf Hitler before the war but after serving with distinction in the Royal Navy became one of the greatest naturalists of his generation With a foreword by Chris Packham CBE *Birds in the Second World War* is the story of how ornithology helped to win the war
