Accessory: Proprietary ①

Speaker

Install the speaker on the side of the central console, ideally alongside the leg of the passenger sitting beside the driver, as far as possible from the microphone.

Thread the speaker cable under the carpet along the floor of the vehicle.

Plug the speaker cable into the compatible connection in the octopus control cable.

Verify that the cable does not interfere with the proper operation of the vehicle and/or its components.

Do not conceal the speaker behind any obstacle (such as dashboard, carpet or any other barrier) which will result in bad audio quality.

Attention! The speaker and microphone (which is fixed on the sun visor above the driver) should be pointed towards opposite directions to avoid audio speaker noise.

Accessory: Proprietary ④

Head control unit

When installing the head inside car phone, avoid positioning the head control unit where it may obstruct the proper operation of the vehicle and/or its components, such as air vents, air bags, catalytic converter compartment, engine light, gear stick, hand brake, etc.

Attach the head-mount car phone on a stable surface, in a position that is safe and convenient for the driver to use.

Special warning: Do not position the head control unit in front of the air bag or where it may impact air bag performance, as the air bag might inflate in an accident and cause damage.

Verify that the control unit does not face the sun or source of humidity, such as air conditioner vents.
