dark traits are acutely present in populists go hand in hand with more aggressive forms of campaign rhetoric such as incivility and negativity and are particularly appreciated by voters who themselves score high on such dark personality traits Their analyses reveal that dark candidates are more likely to be electorally successful when running as an incumbent and tend to be associated with a better economic performance if elected However dark leaders can lead to increased cynicism in the public democratic deconsolidation and even a poorer response to the COVID 19 pandemic Dark Politics provides a new way to understand contemporary politics by looking at the crucial role of dark personality traits in leaders and voters
