The background of the cover is a surreal landscape painting. In the foreground and middle ground, a vast field is covered with thousands of small, rectangular objects, possibly tiles or stones, in various colors including shades of blue, green, yellow, and red. These objects are arranged in a way that creates a sense of depth and texture. In the background, a calm body of water stretches to the horizon under a sky with soft, warm colors of orange, pink, and blue, suggesting a sunset or sunrise. A small, dark silhouette of a person or object is visible on the horizon line.

Poppie Elsa Joubert English:

Elsa Joubert's *The Long Journey of Poppie Nongena* ,1981 *Third World Women's Literatures* Barbara Fister,1995-09-14 This reference volume serves as a companion to Third World women's literatures in English and in English translation by presenting entries on works, writers and themes. Entries are chosen to present a balance of well known writers and emerging ones, contemporary as well as historical writers and representative selections of genres, literary styles and themes. What plays have been written by women in the developing world? What books have been written by Sri Lankan or Brazilian women? Which works address themes of feminism or exile or politics in the Third World? These are the types of questions that can now be answered through Fister's companion to Third World women's literatures in English and English translation. Organized alphabetically, this reference volume presents entries on works, writers and themes. Entries are chosen to present a balance of well known writers and emerging ones, contemporary as well as historical writers and representative selections of genres, literary styles and themes. By providing information about and leads to works by and about Third World women, an important and largely marginalized literature, Fister has created a unique reference tool that will help teachers, scholars and librarians both public and academic expand their definitions of the literary, making the voices of Third World women available in the same format in which many companions to Western literature do. An important book for all public and college level libraries.

The Long Journey of Poppie Nongena Elsa Joubert,2019-10-20 Poppie Nongena's arduous journey covers 40 years of South Africa's history, sweeping through the riots of Sharpeville, Soweto and Cape Town, on to an indefinite but unpromising future. The plot reflects the brutality and injustice of the Apartheid system, while Elsa Joubert's characterisations reflect the courage and fortitude of people in the face of hardship and difficulty. Poppie's contented childhood in the Cape's countryside came to an end when she married a migrant worker and was forced by the authorities to move with him and their young family to the unfamiliar and bewildering city of Cape Town. No sooner had she established her roots in the new township when the laws changed and she was informed of her obligation to relocate to the Ciskei, her husband's homeland. He, as a migrant worker, was permitted to remain in the Cape to work. Over a ten-year period, Poppie fought the heinous pass law system, winning limited extensions to the permit that would allow her to live and work in Cape Town and enable her to keep the family together and provide an education for her children. Her own anger was shared by thousands, and inevitably the brooding undercurrent of discontent exploded throughout South Africa. Suddenly, there were no further extensions. Poppie and her children were forcibly removed from their home and resettled in a new township, hundreds of miles away, near East London. *The Long Journey of Poppie Nongena* is an epic tale of the endless adversity and struggle of a humble black woman under Apartheid laws. Poppie emerges from being a simple country girl to becoming an archetypal heroine of South Africa.

Trauma, Memory, and Narrative in the Contemporary South African Novel, 2012-01-01 The contributions to this volume probe the complex relationship of trauma memory and narrative By looking at the South African situation through the lens of trauma they make clear how the psychic deformations and injuries left behind by racism and colonialism cannot be mended by material reparation or by simply reversing economic and political power structures Western trauma theories as developed by scholars such as Caruth van der Kolk Herman and others are insufficient for analysing the more complex situation in a postcolony such as South Africa This is because Western trauma concepts focus on the individual traumatized by a single identifiable event that causes PTSD Post Traumatic Stress Disorder What we need is an understanding of trauma that sees it not only as a result of an identifiable event but also as the consequence of an historical condition in the case of South Africa that of colonialism and more specifically of apartheid For most black and coloured South Africans the structural violence of apartheid's laws were the existential condition under which they had to exist The living conditions in the townships pass laws relocation and racial segregation affected great parts of the South African population and were responsible for the collective traumatization of several generations This trauma however is not an unclaimed and unclaimable experience Postcolonial thinkers who have been reflecting on the experience of violence and trauma in a colonial context writing from within a Fanonian tradition have on the contrary believed in the importance of reclaiming the past and of transcending mechanisms of victimization and resentment so typical of traumatized consciousnesses Narration and the novel have a decisive role to play here

Writing South Africa Derek Attridge, Rosemary Jolly, 1998-01-22 During the final years of the apartheid era and the subsequent transition to democracy South African literary writing caught the world's attention as never before Writers responded to the changing political situation and its daily impact on the country's inhabitants with works that recorded or satirised state enforced racism explored the possibilities of resistance and rebuilding and creatively addressed the vexed question of literature's relation to politics and ethics Writing South Africa offers a window on the literary activity of this extraordinary period that conveys its range going well beyond a handful of world renowned names and its significance for anyone interested in the impact of decolonisation and democratisation on the cultural sphere It brings together for the first time discussions by some of the most distinguished South African novelists poets and dramatists with those of leading commentators based in South Africa Britain and North America
