**Real Estate Recession Riches - Top 10 Real Estate Investing Tips That Don't Suck!** Cory Boatright, 2013-02 Allow me to share my story with you My name is Cory Boatright I am 35 years old and since my early twenties I have started run or been directly involved with almost 40 different companies I have sold everything from Ginsu knives on eBay Kirby vacuum cleaners door to door all the way to 50 000 high end electronics Online Out of the forty something companies only TWO of them ever proved to be worthwhile endeavors The other thirty eight I decided to call business therapy Interestingly enough both of the successful companies harnessed the power of the Internet to make their profits After bringing in almost 4 million dollars in sales from my first start up I sold it and directed my passion to the world of real estate investing Why real estate Well most of my affluent customers in my first business owned real estate so I knew there was something to be learned in that industry I was a complete novice to it And oh by the way before I forget did I mention that I didn't even graduate from high school Apparently my drive to succeed coupled with my persistence to not fail clouded my judgment of the value of a formal education So instead I settled for a G E D I'm not looking for any pity party I just mentioned this to demonstrate that if a highschool dropout can make it the doors are open for just about anyone else to do it too Now fast forward a bit into my real estate experiences I started out being a bird dog which means I was out finding good deals on properties and getting paid a finders fee for it That fee was usually 500 1 500 After I learned how much money the investor was making selling the houses I was bringing him I quickly learned how to assign wholesale and flip distressed properties That brought in checks anywhere from 3 000 10 000 Not bad but I had a hunch those properties were worth a lot more after they were fixed up So I decided to put together a skeleton rehab crew and thought I would make 15 000 30 000 per deal but I was sadly mistaken My rehab attempts ended up being

more of a mirage instead of a real profit center My 30 000 paydays actually came out to be more around 17 500 after considering all the contractor frustrations material costs labor marketing selling and other holding costs Needless to say I had more fun assigning contracts It wasn't until around 2004 that I stumbled my way through a short sale and I made over 30 000 on that deal That was the most money that I had ever made on one single real estate transaction I couldn't believe the lender would accept less than what was owed for a payoff I was immediately hooked and quickly learned everything possible about the short sale process The more I learned about Short Sales the more I was asked by other investors to partner on deals I quickly became known as the local go to guy for doing short sales Other investors continually asked me how they too could learn to do what I was doing So after being asked by numerous fellow investors to teach and coach them on the subject I decided to dive in head first and write my first information product home study course What I discovered in real estate investing was something I never expected Not only was the short sale niche secretive but the entire industry And the real truth was shared only amongst a small tight knit group of investors but not anymore I've cornered the top dogs in their niche of real estate investing and forced them to talk When you finish reading Real Estate Recession Riches you are going to be smarter and wiser newbie or advanced real estate investor Period Remember be a servant Cory Boatright Cory Boatright is a flat out ge

**The Millionaire Mind - Unlocking Financial Success through Financial Education** Digital

World,2024-09-06 Hello everyone I'm excited to introduce you to the fascinating world of financial psychology In this series we'll explore how our emotions beliefs and behaviors influence our financial decisions We'll see how this understanding can transform our relationship with money and help us achieve our goals Financial psychology studies the relationship between the human mind and money It explores how psychological factors such as emotions perceptions and beliefs influence our financial decisions It combines concepts from psychology and economics to understand financial behavior Financial psychology isn't just about numbers and graphs It helps us understand why we sometimes make financial decisions that don't make rational sense By understanding the psychological mechanisms behind our decisions we can make more informed decisions that align with our goals Emotions such as fear greed and anxiety significantly influence our financial decisions Fear of losing money can lead to conservative decisions while greed can lead to excessive risk taking Hope for a better future can motivate us to save but it can also lead us to invest in high risk assets Emotions are like an internal GPS that guides us in our financial decisions However they can lead us down a wrong path if not managed properly By identifying and understanding our emotions we can make more rational decisions that are aligned with our long term goals Cognitive biases are mental shortcuts we use to make decisions faster but they can lead us to make mistakes Examples of biases include loss aversion confirmation bias and herd behavior How to identify and overcome these biases to make sounder financial decisions Our brains are incredible machines but they are also prone to making mistakes Cognitive biases are like optical illusions that distort our perception of reality By being aware of these biases we can take steps to counteract their effects and make more

rational decisions Our financial habits are shaped by our experiences and beliefs The importance of developing healthy financial habits such as saving investing and planning for the future How to create new habits and break old financial habits Our financial habits are like paths we follow on autopilot If we want to change our financial results we need to change our paths By developing new positive financial habits we can transform our financial lives Financial psychology offers us a new perspective on money Instead of seeing money as an end in itself we can see it as a means to achieve our goals and live a more fulfilling life
