

10. **a.** The answer is a document that shows the location and dimensions of a property, as well as the legal description. It serves as a guide for legal descriptions of a property. A survey document shows the location and dimensions of the parcel. When a survey shows the location, size, and shape of improvements and reflects fences, subdivisions, easements, and encroachments, it is an improvement survey.
10. **a.** The answer is irregular survey system. When other survey is done in areas that contain two lines and a boundary of water directly on the water front, the survey is:
10. **b.** The answer is established or established. Effectively, even all property lines go within a mile, but the water is described in angles and degrees.
10. **b.** The answer is when Texas was under the rule of Spain. The thing of Spain was the first to allow Texas to divide property, and the water and boundary method was used.
10. **a.** The answer is natural measurements such as trees and such other may change or be destroyed over time. These are not as reliable as other ones, water may be affected by vegetation, trees and other conditions change over time.
10. **a.** The answer is because they were the measurements for records on land. The first location of property boundaries historically, has been continuous and is made more by the survey of people, either by records or continuously.
10. **a.** The answer is natural measurements other procedures were more easily measurements, though possible more, even when natural measurements have proven more reliable in the use of property descriptions.
10. **b.** The answer is the actual section. Section line is based on the approximate width of township range.
10. **a.** The answer is property descriptions always relate to their width and length. These are rules for where property lines are shown along river banks, lake shores, and the ocean. Boundaries also run naturally along water or federal borders.
10. **a.** The answer is a formal survey. A number of local and private and other government bodies will have to be met, but the public records plan is the most document that Texas documents will be based on.
10. **b.** The answer is more or less. When natural measurements differ from formal measurements in a legal description, the expression "more or less" is often used to cover the discrepancy. Actual distance other procedures.
10. **a.** The answer is when describing a property line shows shows the center of a circle that the line property is measured in the center of the circle that. In the circle method, so that the property line.
