*Latin America's Turbulent Transitions* Roger Burbach, Michael Fox, Federico Fuentes, 2013-02-14 Over the past few years something remarkable has occurred in Latin America For the first time since the Sandinista Revolution in Nicaragua in the 1980s people within the region have turned toward radical left governments specifically in Venezuela Bolivia and Ecuador Why has this profound shift taken place and how does this new so called Twenty First Century Socialism actually manifest itself What are we to make of the often fraught relationship between the social movements and governments in these countries and do in fact the latter even qualify as socialist in reality These are the bold and critical questions that Latin America's Turbulent Transitions explores The authors provocatively argue that although US hegemony in the region is on the

wane the traditional socialist project is also declining and something new is emerging Going beyond simple conceptions of the left the book reveals the true underpinnings of this powerful transformative and yet also complicated and contradictory process

**Resources in Education** ,2000 Uruguay in Transition Edy Kaufman, Until the early 1970s Uruguay held a worldwide reputation as a democratic island in Latin America maintaining a collective executive system that acquired for it the nickname of the Switzerland of South America The constitutional tradition was emphasized by a nonpersonalist and non authoritarian executive political stability a high standard of living and an advanced educational and cultural level The military has shattered this established tradition Over a two year period its growing involvement in politics ended with absolute control over the executive The aim of this work is to analyze this transformation and consider the major variables that have affected political developments in Uruguay Internal factors are the respective influences wielded by the United States plus Uruguay's two most powerful neighbors Argentina and Brazil as well as political trends in the Latin American subsystem Among the external influences are competing elites the traditional political parties and the left wing front interest groups universities trade unions the church dominant economic sectors and the mass media and the urban guerrilla movement the Tupamaros Kaufman analyzes these factors within the context of the Uruguayan economic and political structure and shows their significance through their effects on the perception of the military elite In addition he attempts to determine whether the army's decision to assume absolute power was strategic or a cumulative result of tactical decisions Finally he utilizes the accumulated data to test various hypotheses related to military intervention as an independent variable
