

COMMUNITY HEALTH NEEDS ASSESSMENT

FINAL SUMMARY REPORT

I. EXECUTIVE SUMMARY

The Tri-County Health Assessment Collaborative, consisting of hospitals, health systems, and health departments within Burlington, Camden, and Gloucester Counties came together to undertake a comprehensive regional community health needs assessment (CHNA). The Tri-County Collaborative included the following partners: Cooper University Health Care, Kennedy Health System, Lourdes Health System, Inspira Medical Center-Woodbury, Virtua Health, and the Health Departments of Burlington, Camden and Gloucester Counties. The CHNA was conducted from September 2012 to June 2013. The purpose of the assessment was to gather information about local health needs and health behaviors. The assessment examined a variety of indicators including risky health behaviors and chronic health conditions.

This CHNA Final Summary Report serves as a compilation of the overall findings of each research component. Detailed reports for each individual component were provided separately. The completion of the CHNA enabled Cooper University Health Care and its partners to take an in-depth look at the greater community. The assessment was conducted to comply with requirements set forth in the Affordable Care Act, as well as to further the hospital's commitment to community health and population health management. The findings from the assessment were utilized by Cooper to prioritize public health issues and develop a community health implementation plan focused on meeting community needs.

Research Components

The CHNA Collaborative took a comprehensive approach to identifying the needs in the communities it serves. A variety of quantitative and qualitative research components were implemented as part of the CHNA. These components included the following:

- Secondary Statistical Data Profile of Camden County
- Household Telephone Survey with 575 community residents
- Key Informant Interviews with 113 community stakeholders
- Focus Group Discussions with 22 community residents

Key Community Health Issues

The following community health issues appeared in multiple research components:

- Access to Health Care
- Mental Health & Substance Abuse
- Chronic Health Conditions
