Cellular Obsession: How Smartphones, and the Internet of Things Are Going to Change Your Life Nick Vulich,2017-08-06 Mobile Will Change Everything Again George Orwell s paranoid vision of 1984 is here Only it isn t Big Brother who is watching us It s Big Data Here s the deal Google Apple and Microsoft are all attempting to do the same thing They are trying to get your device to learn enough about you so it can anticipate what you want to do next and provide the appropriate information just as you need it Rafe Needleman described it best in an article he authored for Yahoo Tech He said artificial intelligence will be somewhat like auto correct Your smartphone will auto suggest what you should do next based on your history To do that your smartphone would draw on your prior browsing history and what it knows about you from your GPS

location services your text messages and your emails The hard part is getting your phone to think contextually As human beings we can put things in context based on what's happening now For example let's say you are sitting in your house You smell something burning and see smoke coming from the kitchen The next thing you know the smoke alarm goes off Most people can put two and two together to determine something is wrong They understand that maybe the house is on fire A normal person is either going to check it out or dial 9 1 1 and run out of the house screaming fire Here's a tougher one Let's say you have an appointment set to replace your windshield at 9 15 The Glass Barn texts you to say they are running an hour behind schedule Is that okay Or would you like to reschedule That text is buried among several other messages Most of them are junk A coupon for a dollar off a sandwich free drinks at the bar down the street and a contest entry Which messages should your phone hide or display Most people would say the message from the Glass Barn should be displayed first because it's more urgent But how do you teach a chunk of metal and memory chips to make that decision That's the real challenge When contextual intelligence works it's amazing The problem is that right now your phone gets it right less than a third of the time Google is working hard to improve on that number Their future depends on getting it right Time Magazine ran an article by Victor Lukerson a while back titled Google Searches for Its Future The premise was it's a whole new world out there Google became the go to search engine because of their excellence in desktop search but mobile has changed everything If Google wants to survive they need to reinvent themselves The future is mobile and Google has determined the only way they can survive in this new reality is to focus in on voice search and Google Now Want to know more Buy the book Lean why cellular is the future of everything Popular Science ,2003-12 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better

from computational fluid dynamics to structure interpretation - Nov 26 2022

web mar 25 2022 we report the application of machine learning methods for predicting the effective diffusivity D_e of two dimensional porous media from images of their structures pore structures are built using reconstruction methods and represented as images and their effective diffusivity is computed by lattice boltzmann lbm simulations

porous media fluid transport and pore structure google books - May 01 2023

web dec 2 2012 porous media fluid transport and pore structure presents relevant data on the role of pore structure in terms of transport phenomena in pore spaces the information is then applied to

porous media fluid transport and pore structure google books - Jan 29 2023

web capillarity in porous media pore structure single phase transport phenomena in porous media selected operations involving transport of a single fluid phase through a porous medium multiphase flow of immiscible fluids in porous media miscible displacement and dispersion

porous media fluid transport and pore structure google books - Jun 02 2023

web dec 2 2012 porous media fluid transport and pore structure this book examines the relationship between transport properties and pore structure of porous material models of pore structure are

porous media second edition fluid transport and pore structure - Jul 23 2022

web nov 26 1991 key features presents mechanisms of immiscible and miscible displacement hydrodynamic dispersion process in porous media examines relationships between pore structure and fluid transport considers approaches to enhanced oil recovery explores network modeling and percolation theory

the impact of pore structure heterogeneity transport and - Feb 15 2022
