

- Uses star topology and defines how child hub can be connected to a parent hub to extend the network.

100BaseT? (Fast Ethernet)

- Uses CSMA/CD on a star-wired bus.
- There are 3 specifications:
 - 100BaseT4: Uses pair category 3, 4 or 5 UTP.
 - 100BaseTX: Uses 2-pair category 5 UTP or STP.
 - 100BaseFX: Uses 2-strand fiber-optic

Token Ring Network Architecture

- IEEE 802.5 specification.
- Star wired ring topology (logical ring)
- Uses token passing access method.
- Can have higher transmission speeds than Ethernet
- It has larger frames than Ethernet => more can get transferred over the wire in any given time.
- Uses IBM STP Types 1, 2 and 3 cabling. (Can be UTP)
- Transmits at 4 and 16 Mbps. (16 Mbps cards will slow down to 4 Mbps if put on that kind of network, but the 4 Mbps cards can't speed up.
- Baseband transmission
- Data travels in one direction only
- Each computer acts as a unidirectional repeater
- Deterministic method of cable access. Computers cannot use the cable unless they have the token. Therefore, computers can't force their way onto the network like CSMA/CD (Ethernet)
- First computer online is assigned to monitor network activity.

Token Ring Components

- Multistation Access Units (MSAU's)
- Smart Multistation Access Units (SMAU's)
- Computers attach directly to the MSAU in a physical star to form a logical ring.
- Each MSAU has 10 connection ports ==> can support 8 clients with 2 ports for ring in and ring out.
- Each ring can have as many as 33 MSAU's
- Up to 12 MSAU's can connect to each other
- The MSAU can sense if a computer is down and then disconnect it from the ring => built-in fault tolerance
- Most token ring systems use IBM type 3 cabling.
- Token ring networks are well suited to fiber optic cable: data travels in only one direction in it.

The Learning Leader Douglas B. Reeves,2020-08-31 We can t do that in our school district I don t have time to add that to my curriculum We re fighting against impossible odds with these students Sound familiar School improvement can often feel like a losing battle but it doesn t have to be In this fully revised and updated second edition of The Learning Leader Douglas B Reeves helps leadership teams go beyond excuses to capitalize on their strengths reduce their weaknesses and reset their mindset and priorities to achieve unprecedented success A critical key is recognizing student achievement as more than just a set of test scores Reeves asserts that when leaders focus exclusively on results they fail to measure and understand the importance of their own actions He offers an alternative the Leadership for Learning Framework which helps leaders identify and distinguish among four different types of educators and provide more effective tailored support to Lucky educators who achieve high results but don t understand how their actions influence achievement Losing educators who

achieve low results yet keep doing the same thing expecting different outcomes Learning educators who have not yet achieved the desired results but are working their way toward excellence Leading educators who achieve high results and understand how their actions influence their success Reeves stresses that effective leadership is neither a unitary skill nor a solitary activity The Learning Leader helps leaders reconceptualize their roles in the school improvement process and motivate themselves and their colleagues to keep working to better serve their students
