Zenon,2007-03 As opposed to offering up typical magic tricks this hilarious collection of scams swindles bets and stunts features everyday objects and requires no special skills just nerve Some of the scams presented include how to drink from a champagne bottle without opening it guess the date on a coin as it spins on the table and pull a 10 dollar bill out from under a beer bottle without touching or knocking over the bottle This amusing guide claims that a cheater armed with the right skills always wins and provides a crash course in conning at cards pool bets and pretty much any activity where a sucker can be cornered into taking a chance Mathematical Discovery Brian Thomson,Judith Bruckner,Andrew Bruckner,2011-04-28

This book is an outgrowth of classes given at the University of California Santa Barbara mainly for students who had little mathematical background Many of the students indicated they never understood what mathematics was all about beyond what they learned in algebra and geometry Was there any more math ematics to be discovered or created How could one actually discover or create new mathematics In order to give these students some sort of answers to such questions we designed a course in which the students could actually participate in the discovery of mathematics **Math Tricks** Alfred S. Posamentier,2021-05-15 It is no secret that most people avoid mathematics in large measure because elementary school teachers have never done much to motivate a love of the subject matter In his latest book mathematician Alfred S Posamentier provides easily understandable easily presentable and easily replicated tricks that one can do with mathematics All that is required is the ability to do arithmetic understand the very basics of algebra and geometry and have an open mind for probability From geometrical puzzles to numerical quirks Math Tricks will give readers that aha moment they may never have received at school **Strand Magazine** ,1909
