*The Routledge Handbook of Discourse Analysis* Michael Handford, James Paul Gee, 2023-05-15

The Routledge Handbook of Discourse Analysis covers the major approaches to discourse analysis from critical discourse analysis to multimodal discourse analysis and their applications in key educational and institutional settings. The handbook is divided into eight sections: Approaches to Discourse Analysis; Gender, Race, and Sexualities; Narrativity and Discourse; Genre and Register; Spoken Discourse; Social Media and Online Discourse; Educational Applications and Institutional Applications. The chapters are written by a wide range of contributors from around the world, each a leading researcher in their respective field. With a focus on the application of discourse analysis to real-life problems, the contributors introduce the reader to a topic and analyse authentic data. This fully revised second edition includes new sections on Gender, Race, and Sexualities; Narrativity and Discourse; Genre and Register; Spoken Discourse; Social Media and Online Discourse; and nine new chapters on topics such as digital communication and public policy and political discourse. This volume is vital reading for all students and researchers of discourse analysis in linguistics, applied linguistics, communication, and cultural studies, social psychology, and anthropology.

Handbook of Research on New Literacies Julie Coiro, Michele Knobel, Colin Lankshear, Donald J. Leu, 2014-04-04

Situated at the intersection of two of the most important areas in educational research today, literacy and technology, this handbook draws on the potential of each while carving out important new territory. It provides leadership for this newly emerging field, directing scholars to the major issues, theoretical perspectives, and interdisciplinary research pertaining to new literacies. Reviews of research are organized into six sections: Methodologies; Knowledge and Inquiry; Communication; Popular Culture; Community and Citizenship; Everyday Literacies; Instructional Practices and Assessment; Multiple Perspectives on New Literacies Research. FEATURES: Brings together a diverse international team of editors and chapter authors. Provides an extensive collection of research reviews in a critical area of educational research. Makes visible the multiple perspectives and theoretical frames that currently drive work in new literacies. Establishes important space for the emerging field of new literacies research. Includes a unique Commentary section. The final section of the Handbook reprints five central research studies. Each is reviewed by two prominent researchers from their individual and different theoretical position. This provides the field with a sense of how diverse lenses can be brought to bear on research as well as the benefits that accrue from doing so. It also provides models of critical review for new scholars and demonstrates how one might bring multiple perspectives to the study of an area as complex as new literacies research. The Handbook of Research on New Literacies is intended for the

literacy research community broadly conceived including scholars and students from the traditional reading and writing research communities in education and educational psychology as well as those from information science cognitive science psychology sociolinguistics computer mediated communication and other related areas that find literacy to be an important area of investigation

**Engagement in Medical Research Discourse** Daniel Lees Fryer, 2021-09-19 This book integrates insights from dialogic theory and systemic functional linguistics SFL to extend our understandings of engagement in medical research articles going beyond notions of the role of verbal dialogue to encompass mathematical and visual semiotics and consider text not just as language but as multisemiosis The volume begins by outlining the engagement framework and offering a brief overview of historical developments in medical research discourse This discussion culminates in the introduction of the corpus used for analysis drawing on original research articles from key medical journals to explore verbal mathematical and visual engagement in turn A subsequent chapter brings these perspectives together to demonstrate intersemiotic engagement across different stages and phases of the medical research article and how such resources work together to construe and maintain the authoritative position commonly associated with medical discourse The book looks ahead to engagement in other related disciplinary fields and future directions for work on multisemiosis and medical research discourse more generally This book will be of particular interest to graduate students and researchers in multimodality critical discourse analysis applied linguistics SFL and science education The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
