Reason And The Imagination:

Reason and Imagination Joseph Anthony Mazzeo, 2021-11-29 First published in 1962 Reason and Imagination presents a collection of fourteen essays dedicated to Marjorie Hope Nicholson and is divided equally between works of her colleagues and of her former students. It contains themes like noble numbers and poetry of devotion Cromwell as Davidic King the isolation of the renaissance hero Milton's dialogue on Astronomy music mirth and galenic traditions in England the Augustan conception of history Locke and Sterne and literary criticism and artistic interpretation to weave a narrative of the history of ideas in the seventeenth and eighteenth century. This book will be an essential read for scholars and researchers of literary history philosophy comparative literature and English literature in general. *The Textual Sublime* Hugh J. Silverman, Gary E. Aylesworth, 1990-01-05 This book addresses the question of deconstruction by asking what it is and discussing its alternatives. To what extent does deconstruction derive from a philosophical stance and to what extent does it depend upon a set of strategies moves and rhetorical practices that result in criticism. Special attention is given to the formulations offered by Jacques Derrida in relation to Heidegger's philosophy and by Paul de Man in relation to Kant's theory of the sublime and its implications for criticism. And what in deconstructive terms does it mean to translate from one textual corpus into another. Is it a matter of different theories of translation or of different practices. And what of difference itself. Does not difference already invoke the possibility of deconstruction's others. Althusser Adorno and Deleuze are offered as exemplary cases. The essays in this volume examine in detail these differences and alternatives. *The Textual Sublime* is particularly concerned with how a text philosophical or literary sets its own limits borders and margins how it delimits what constitutes the text per se and how it invokes at the same time what is not determinately in the text. The textual sublime is that aspect of a text that deconstruction shows to be both an element of the text and what surpasses the text what takes it outside itself in view of alternatives and alterities and what ties it to differing philosophical rhetorical historical and critical practices. *More Dr. Seuss and Philosophy* Jacob M. Held, 2018-04-01 Dr Seuss and Philosophy delighted thousands of readers by demonstrating the insights of these children's classics through a playful engagement with the philosophical tradition. In *More Dr Seuss and Philosophy* readers will be offered a vision of the good life through the world of Dr Seuss. Whether it's stoicism and care of the self in *Did I ever Tell you How Lucky you Are* facing our own mortality in *You're Only Old Once* or the value of compassion building communities and resolving conflicts in the parables of Horton the elephant King Derwin of Didd or the Butter Battle Book the essays in this book focus on living well through the wisdom of Dr Seuss and other philosophers. Sellars,2011-01-01 There is a seeming dichotomy in C S Lewis's writing On the one hand we see the writer of argumentative works and on the other hand we have the imaginative poet Lewis also found this dichotomy within himself When he was a rationalist and atheist he found that these two sides of him were pulling in different directions he believed that his rationalist side could not be reconciled with his imaginative side Once he became a Christian he eventually found a means of marrying the two principally through story and myth Within C S Lewis studies there is also a common conception of Lewis as a modern rationalist philosopher i e a rationalist who thinks arguments and his arguments in particular are the last answer on the questions he undertakes Reasoning beyond Reason attempts to take this view to task by placing Lewis back into his pre modern context and showing that his sources and influences are classical ones In this process Lewis is viewed through the idea that imagination and reason are connected in an intimate way they are different expressions of a single divine source of truth and there is an imagination already present upon which reason works Lewis's transpositional view of imagination implicitly pushes towards a somewhat radical position the imagination is to be seen as theological in its reliance upon something more than the merely material it necessarily relies on a transcendent funding for its use and meaning In other words the imagination is a well source for what we might normally label rational *The Proficiency and Advancement of*

Blumenfeld-Jones,2022-04-12 This book addresses the crucial issue of how we value and deploy the idea of freedom that

underlies contemporary curriculum studies Whether we are conventional curriculum thinkers who value knowledge development or favor a Deweyan individualist orientation toward curriculum or are a critical social justice curriculum thinker at the heart of all these orientations and theorizing is the value of freedom The book addresses freedom through novel sources the work of Martin Buber on education Julia Kristeva on the uses of imagination and the female male dialectic Emmanuel Levinas unique approach to ethics and more Readers will find new ways to understand freedom and the world of ethical life as informing curriculum thinking It provides a more ecumenical vision that can draw our differences together It helps readers to reconsider ourselves in fruitful ways that can bring more relevance and substance to the field

Masquerade of the Dream Walkers Peter A. Redpath,1998 Through extensive textual analysis this book concludes that the prevailing opinion about the nature of modern and contemporary philosophy is wrong It maintains that almost all modern and contemporary philosophy is deconstructed secularized Augustinian theology not philosophy The work is divided into eight chapters a guest Foreword by Herbert I London President of the Hudson Institute and Olin Professor of Humanities at New York University notes bibliography and an index Chapter 1 Protagoras Sees the Ghost of Hippo considers Cartesian thought Hobbes and Newton Chapter 2 I Feel the Spirit Move Me examines Locke Berkeley and Hume Chapter 3 The Urge to Emerge investigates Lessing and Rousseau Chapters 4 To Dream the Impossible Dream and 5 Wake Up Wake Up You Sleepyhead treat Kant Chapters 6 I Am Music and 7 Looking for God in All The Wrong Places deal with Hegel Chapter 8 Dirty Dancing Higher Education as Enlightened Swindling concludes that a lack of philosophical and historical experience coupled with a widespread inability to read philosophical texts according to the intention of the author 1 causes us to mistake secularized theology for philosophy and 2 is a main cause for the decline of contemporary universities C. S. Lewis's List David Werther,Susan Werther,2015-04-09 In 1962 The Christian Century published C S Lewis s answer to the question What books did most to shape your vocational attitude and your philosophy of life Lewis responded with ten titles ranging from Virgil s Aeneid to James Boswell s The Life of Samuel Johnson and from George Herbert s The Temple to Boethius s The Consolation of Philosophy C S Lewis s List brings together experts on each of the ten books to discuss their significance for Lewis s life and work illuminating his own writing through those he most admired The Left in Search of a Center Michael Crozier,Peter Murphy,1996 Does leftist political thought have a future American liberalism is being marginalized European socialism is exhausted and cultural radicalism has become little more than a sideshow Contributors to The Left in Search of a Center probe questions of how political community can be imagined and constituted in the contemporary world Together they make it apparent that the still emerging idea of political community is anchored in the pluralistic and cross cultural nature of late twentieth century Western societies *Phenomenology/Ontopoiesis Retrieving Geo-cosmic Horizons of Antiquity* Anna-Teresa Tymieniecka,2011-08-10 The controversy of flux and stasis as the groundwork of reality of Greek ancient philosophy reached its crux in the all encompassing doctrine of the logos by Heraclitus of Ephesus It centers upon

human soul in its role with the cosmos Philosophy of the Occident corroborating Greek insights with the progress of culture in numerous interpretations Kant Kierkegaard Husserl Merleau Ponty Ricoeur presented in this collection has neglected the cosmic sphere While contemporary development of science revealed its grounding principles papers by Grandpierre Kule and Trutty Coohill the ancient logos fully emerges Thus logos hitherto hidden in our commerce with earth is revealed in its intertwinings with the cosmos through the trajectories of the phenomenology onto-poiesis of life Tymieniecka The crucial link between the soul and the cosmos in a new geo cosmic horizon is thus being retrieved Voices from the Press James J. Law and Life in Common Timothy Macklem, 2015-03-12 We live in a moral world in which reasons come in different kinds as well as different weights so that the claims of one reason upon us are often different from but no greater than the claims of some other reason Yet law in its self presentation and in theoretical accounts of it proceeds as if its rational pull was conclusive as if there were no sensible alternative to compliance with its terms In itself that should not be surprising each of us often acts as if the reasons that animate us were morally determinative Why should law operate in any other way Yet we know that in fact reasons are usually not determinative of action and while pretence to the contrary may not much matter in individual settings it matters very much in the setting of the law The ability of the law to build a life in common of whatever kind is dependent on its ability to function most of the time at least as if its claims were pre eminent rather than undefeated at best If law is to succeed in its basic project of binding people to its aims it must buttress its limited rational claims with arational appeals It needs partners not only in the prudential considerations that force gives rise to but also in the beguilement that shared imaginings make possible This book is an exploration of those partnerships in principle and in their most important details

The Routledge Companion to Reinventing Management Education Chris Steyaert, Timon Beyes, Martin Parker, 2016-06-17 The position and role of the business school and its educational programmes have become increasingly prominent yet also questioned and contested What management education entails and how it is enacted has become a matter of profound concern in the field of higher education and more generally for the development of the organized world Drawing upon the humanities and social sciences The Routledge Companion to Reinventing Management Education imagines a different and

better education offered to students of management entrepreneurship and organization studies It is an intervention into the debates on what is taught and how learning takes place demonstrating both the potential and the limits of what the humanities and social sciences can do for management education Divided into six sections the book traces the history and theory of management education reimagining central educational principles and outlining an emerging practice based approach With an international cast of authors The Routledge Companion to Reinventing Management Education has been written for contemporary and future educators and for students and scholars who seek to make a difference through their practice Methodist Magazine and Quarterly Review ,1835
