Protecting the Welfare of Individuals Operating in Organized Sport James L. Rumbold, Ashley Stirling, Louise Davis, James Newman, Andrew J. Higham, 2025-03-26 The issue of welfare in sport has become paramount in recent years This has led various individuals who operate in sport e g the media professional bodies and researchers to consider aspects such as safeguarding clean sport overtraining and the wider ethics surrounding the duty of care of those involved in sport Focusing greater attention on understanding these aspects is critical given the potentially deleterious effects these aspects may have on the well being and mental health of individuals who are subjected to wrongdoing in sport Furthermore by focusing on safeguarding clean sport overtraining and the wider ethics surrounding the duty of care and addressing wrongdoing it provides a critical opportunity to improve cultures in sport and make this a more prosocial environment for all involved Given the need to promote a prosocial environment in sport as well as the need to address wrongdoing in this context it is unsurprising that some researchers professional bodies and sport organizations have tasked themselves with the protection of individuals in this context To date work has been undertaken to explore how issues concerning the welfare of individuals are understood to consider the impact of the sporting culture on the protection or

otherwise of individuals operating in sport and to develop potential interventions which may protect those involved in this context Numerous positive advances have been made to understand and improve the welfare and well being of those involved in sport as well as to raise awareness and education at the micro e g peer to peer meso e g coach athlete coach parent parent athlete exo e g professional leagues national governing bodies and macro system e g media and societal views levels Despite this these advances have not necessarily been well communicated between system levels or across international perspectives Continued efforts are therefore needed to disseminate research findings policy and practice developments in this area

Therefore the goal of this research topic is to bring together a collection of papers that are concerned with protecting the welfare of individuals who may operate at varying system levels within organized sport **Feminist Futures** Kum-Kum Bhavnani,John Foran,Priya A. Kurian,Debashish Munshi,2016-10-15 Straddling disciplines and continents Feminist Futures interweaves scholarship and social activism to explore the evolving position of women in the South Working at the intersection of cultural studies critical development studies and feminist theory the book s contributors articulate a radical and innovative framework for understanding the linkages between women culture and development applying it to issues ranging from sexuality and the gendered body to the environment technology and the cultural politics of representation This revised and updated edition brings together leading academics as well as a new generation of activists and scholars to provide a fresh perspective on the ways in which women in the South are transforming our understanding of development
