Salmon Fishing, Guide To Ed Rychkun, Rychkun, Mike, 1992 This salmon fishing guide is designed to give you the sport fisherman a quick and effective reference system on those basic techniques that have been most successful in the water of these areas Campbell River and Port Alberni both publicly pronounce themselves as the Salmon Capital of the World While it is not clear who really owns the title it is clear that these two areas of Vancouver Island provide an abundance and variety of salmon sports fishing unsurpassed elsewhere Over the years salmon in their normal annual habits have stopped in the special feeding areas in the waters of Campbell River Port Alberni Inlet and the Barkley Sound before their upriver journeys providing unusual opportunities to the salmon sport fishermen Every year the same areas and same basic techniques have provided fruitful sporting adventures to more and more people We as average fishermen have spent many years compiling the critical information about this fantastic sport The areas within which salmon can be found are incredibly vast yet the waters where they can be caught represent a minute portion in comparison For the average angler the waters never seem to produce or the deluge of salmon gear is much too confusing In addition we have found that the location maps are always too general the books on salmon fishing techniques are just too detailed It really becomes quite difficult to find the spot and the method to hook that illusive big one So we felt that we would provide a means of allowing the average angler a way of saving time and money by providing all the key information he needs to start enjoying the sport
