

Sample Essay on Cultural Identity

As has been documented by numerous professionals, culture plays a key role during the definition of a particular community or a given group of people. Cultural identity is used in reference to how people from a particular setting lead their lives (Chapter1 4). Culture also greatly influences how people communicate with each other and it is worth noting that methods of communication vary from one culture to the next. As such, what is deemed acceptable by one culture and community, may not be necessarily accepted in the other. Culture also plays a significant role in intercultural communication.

Culture as a historically shared system of symbolic resources from which people derive and construct meaning of their worlds. Systems, symbolic resources, and making the world meaningful are the most important aspects of this definition. Every culture found in a community or a society must be made up of a variety of systems through which it functions. The systems may be composed of communication systems, leadership systems, academic systems, and other social systems and they generally help to complete the society. Symbolic resources, on the other hand, are the actual artifacts or features that make a culture unique and they may include the unique dressing code, practices such as cultural dances and cherished attires, as well as the national flag. People's view of their world tends to differ and this is shaped by how people in different societies tend to view or think of other people from other societies.

Of high importance is the comprehension of diverse cultures so as to be able to live amicably with people from other cultures. Cultural identity is an element that is brought about when a person comprehends their own culture and this helps the person to also comprehend and appreciate the culture of other people as well. In addition, it promotes the vital art of communication between people who are living in one place but come from different cultures (Chapter1 6). This is why this

Human Assessment and Cultural Factors John W. Berry, S.H. Irvine, 2013-11-11 Against the background of NATO's Istanbul conference of 1971 Cronbach and Drenth 1972 the Kingston conference shows that great progress has been made by the community of cross cultural psychologists The progress is as much in the psychology of the investigators as in the investigations being reported In 1971 the investigators were mostly strangers to each other Behind their reports lay radically different field experiences disparate research traditions and mutually contradictory social ideals Istanbul was not a Tower of Babel but participants did speak past each other Now a community exists thanks to the meetings of NATO and the International Association for Cross Cultural Psychology to flourishing journals and the Triandis et al 1980 Handbook The members tend to know each other can anticipate how their formulations will fall on the ears of others and accept superficially divergent approaches as making up a collective enterprise Ten years ago there was open conflict between those who confronted exotic peoples with traditional tests and applied traditional interpretations to the responses and the relativists who insisted that tasks test taking and

interpretation cannot be standardized in the ways that matter Today's investigators are conscious of the need to revalidate tasks carried into alien settings they often prefer to redesign the mode of presentation and to attune the subject to test taking They face the difficulties squarely and recognize that even the best means of coping are only partially successful

Youth Culture in Modern Britain, c.1920-c.1970 David Fowler,2008-09-30 This book traces the history of youth culture from its origins among the student communities of inter war Britain to the more familiar world of youth communities and pop culture Grounded in extensive original research it explores the individuals institutions and ideas that have shaped youth culture over much of the twentieth century *Culture & Rhetoric* Ivo A. Strecker,Stephen A. Tyler,2009 While some scholars have said that there is no such thing as culture and have urged to abandon the concept altogether the contributors to this volume overcome this impasse by understanding cultures and their representations for what they ultimately are rhetorical constructs These senior international scholars explore the complex relationships between culture and rhetoric arguing that just as rhetoric is founded in culture culture is founded in rhetoric This intersection constitutes the central theme of the first part of the book while the second is dedicated to the study of figuration as a common ground of rhetoric and anthropology The book offers a compelling range of theoretical reflections historical vistas and empirical investigations which aim to show how people talk themselves and others into particular modalities of thought and action and how rhetoric and culture in this way are co emergent It thus turns a new page in the history of academic discourse by bringing two disciplines anthropology and rhetoric together in a way that has never been done before Publisher's website
