Physical Reconstruction and Vocational Education, Part One United States. Surgeon-General's Office, Arthur Griswold Crane, 1927 Contemporary Issues in Primary Physical Education Gerald Griggs, Vicky Randall, 2025-05-06 This book examines some of the most important issues in primary Physical Education today With teachers and schools facing a deluge of policy initiatives from government and professional associations this book helps practitioners and students make sense of and debate the current landscape in primary Physical Education and to develop sound evidence based practice for each chapter topic Each chapter explores an issue that is having a significant impact on the development of primary Physical Education including hot topics such as decolonising Physical Education Physical Education as a core subject in schools establishing a pupil led curriculum and creating a whole school movement culture Every chapter provides an overview of the issue as well as a critical discussion of the significance of the issue before reflecting on how that issue might affect teaching practice This book also provides useful guides to further reading around each of the issues raised Written by two leading researchers in primary Physical Education both of whom are experienced primary Physical Education teachers this book is an essential read for any Physical Education student trainee Physical Education teacher or in service teacher looking to extend their professional learning and practice Disabled Children and Young People in Sport, Physical Activity and Physical Education Anthony J. Maher, Justin A. Haegele, 2024-11-28 This book presents research on disabled children and young people in sport physical activity and physical education settings using empirical data gathered either with or from disabled children and young people centring their experiences and amplifying their voices while decentralising non disabled voices in research about them Much of the albeit limited research relating to disabled children and young people in sport physical activity and physical education settings is from the perspective of teachers school leaders coaches support assistants and special educational needs coordinators While this research has undoubtedly contributed to developing a rich tapestry of knowledge about disability and sport physical activity and physical education the views and experiences of disabled children and young people are conspicuous by their absence Thus in this book contributors showcase research that centres on the experiences and amplifies the voices of disabled children and young people When reading these articles readers are encouraged to reflexively consider the ways and extent to which their own research and practice endeavours to include empower and emancipate disabled children and young people Contributors hope that this book will encourage sport physical activity and physical education scholars especially those who do not research disability to consider the significance of including disabled people as active participants in more general research studies This book will be an essential reading for those who want to learn more about involving disabled children and young people in research centring their experiences and amplifying their voices in sport physical activity and physical education as part of the multi stakeholder approach advocated by Vickerman and Maher 2018 It was originally published as a special issue of Sport Education and Society **The Army**

Medical Department, 1917-1941 Mary C. Gillett, 2009 From the Book's Foreword Long awaited Mary C Gillett's final work The Army Medical Department 1917 1941 complete her four volume study covering the years from 1775 to 1941 Although the Medical Department had improved medical standards and practices because of the latest advances in scientific medicine and was making significant progress toward creating an organizational structure and a supply system able to handle the demands of a conflict of any size its reserves of trained personnel and supplies were seriously inadequate when the nation entered world War I in the spring of 1917 The narrative first describes the struggle of an unprepared department to meet the myriad demands of a war unprecedented size and complexity then follows postwar efforts to meet the needs of the peacetime army during nearly two decades of continental isolationism and budgetary neglect and finally covers the brief period of growing awareness of America's involvement in another major conflict and the intensive preparation efforts that ensued

The Army Medical Department, 1917-1941 (Paperback) Mary C. Gillett, 2009-11-23 CMH 30 10 1 Army Historical Series Provides a long needed in depth analysis of the Army Medical Department's struggle to maintain the health and fighting ability of the nation's soldiers during both World War 1 a conflict of unexpected proportions and violence and the years that preceded World War 2

Shifting Boundaries of Public Health Susan Gross Solomon, Lion Murard, Patrick Zylberman, 2008 European public health was a playing field for deeply contradictory impulses throughout the twentieth century In the 1920s international agencies were established with great fanfare and postwar optimism to serve as the watchtower of health the world over Within less than a decade local level institutions began to emerge as seats of innovation initiative and expertise But there was continual counterpressure from nation states that jealously guarded their policymaking prerogatives in the face of the push for cross national standardization and the emergence of original initiatives from below In contrast to histories of twentieth century public health that focus exclusively on the local national or international levels Shifting Boundaries explores the connections or zones of contact between the three levels The interpretive essays written by distinguished historians of public health and medicine focus on four topics the oscillation between governmental and nongovernmental agencies as sites of responsibility for addressing public health problems the harmonization of nation states agendas with those of international agencies the development by public health experts of knowledge that is both placeless and respectful of place and the transportability of model solutions across borders The volume breaks new ground in its treatment of public health as a political endeavor by highlighting strategies to prevent or alleviate disease as a matter not simply of medical techniques but political values and commitments Contributors Peter Baldwin Iris Borowy James A Gillespie Graham Mooney Lion Murard Dorothy Porter Sabine Schleiermacher Susan Gross Solomon Paul Weindling and Patrick Zylberman Susan Gross Solomon is professor of political science at the University of Toronto Lion Murard and Patrick Zylberman are both senior researchers at CERMES Centre de Recherche M decine Sciences Sant et Soci t CNRS EHESS INSERM Paris
