Breaking Point Rebecca Schwartz Greene,2023-01-03 WINNER SOCIETY FOR MILITARY HISTORY DISTINGUISHED BOOK AWARDS FIRST BOOK This book informs the public for the first time about the impact of American psychiatry on soldiers during World War II Breaking Point is the first in depth history of American psychiatry in World War II Drawn from unpublished primary documents oral histories and the author s personal interviews and correspondence over years with key psychiatric and military policymakers it begins with Franklin Roosevelt s endorsement of a universal Selective Service psychiatric examination followed by Army and Navy pre and post induction examinations Ultimately 2 5 million men and women were rejected or discharged from military service on neuropsychiatric grounds Never before or since has the United States engaged in such a program In designing Selective Service Medical Circular No 1 psychiatrist Harry Stack Sullivan assumed psychiatrists could predict who might break down or falter in military service or even in civilian life thereafter While many American and European psychiatrists questioned this belief and huge numbers of American psychiatric casualties soon raised questions about screening s validity psychiatric and military leaders persisted in 1942 and 1943 in endorsing ever tougher screening and little else Soon families complained of fathers and teens being drafted instead of being identified as psychiatric 4Fs and Blacks and Native Americans among others complained of bias A frustrated General George S Patton famously slapped two malingering neuropsychiatric patients in Sicily a sentiment shared by Marshall and Eisenhower though they favored a tamer style Yet psychiatric rejections evacuations and discharges mounted While psychiatrist Roy Grinker and a few others treated soldiers close to the front in Tunisia in early 1943 this was the exception But as demand for manpower soared and psychiatrists finally went to the field and saw that combat itself not predisposition precipitated breakdown leading military psychiatrists switched their emphasis from screening to prevention and treatment But this switch was too little too late and slowed by a year long series of Inspector General investigations even while numbers of psychiatric casualties soared Ironically despite and even partly because of psychiatrists wartime performance plus the emotional toll of war postwar America soon witnessed a dramatic growth in numbers popularity and influence of the profession culminating in the National Mental Health Act 1946 But veterans with PTSD not recognized until 1980 were largely neglected

disciplinary research concerning cutting edge cultural heritage informatics physics chemistry and engineering and the use of technology for the representation documentation archiving protection preservation and communication of Cultural Heritage knowledge God vs. Darwin Mano Singham,2009-11-16 In God vs Darwin Mano Singham dissects the legal battle between evolution and creationism in the classroom beginning with the Scopes Monkey trial in 1925 and ending with an intelligent design trial in Dover Pennsylvania in 2005 A publicity stunt the Scopes Monkey trial had less to do with legal precedence than with generating tourism dollars for a rural Tennessee town But the trial did successfully spark a debate that has lasted more than 80 years and simply will not be quelled despite a succession of seemingly definitive court decisions In the greatest demonstration of survival opposition to the teaching of evolution has itself evolved Attempts to completely eliminate the teaching of evolution from public schools have given way to the recognition that evolution is here to stay that explicitly religious ideas will never be allowed in public schools and that the best that can be hoped for is to chip away at the credibility of the theory of evolution Dr Singham deftly answers complex questions Why is there such intense antagonism to the teaching of evolution in the United States What have the courts said about the various attempts to oppose it Sprinkled with interesting tidbits about Charles Darwin and the major players of the evolution vs creationism debate God vs Darwin is charming in its embrace of the strong passions aroused from the topic of teaching evolution in schools **Stochastic**
