OECD Economic Surveys: Brazil 2020 OECD,2020-12-16 The COVID 19 pandemic has caused severe human suffering and triggered a deep recession in Brazil Economic policies reacted in a timely and decisive manner to the crisis supporting millions of Brazilians But a strong and inclusive recovery from the recession will require long lasting improvements in economic policies Improving fiscal outcomes remains one of Brazil's principal challenges given a high debt burden to which the pandemic has added significantly Public spending will need to become more efficient including by building on past progress in the fight against corruption and economic crimes Social protection can be strengthened through a better focus on the most effective policies and benefits which could allow significant reductions in inequality and poverty Stronger growth will hinge on raising productivity which has been virtually stagnant for decades This requires addressing underlying policy challenges including reducing regulatory burdens reforming taxes strengthening judicial efficiency and fostering a stronger integration into the global economy Raising productivity implies reallocations and structural changes in the economy which should be accompanied by well designed training and education policies Training with a strong focus on local skill demand can help workers master the transition and seize new opportunities to move into better jobs

Primary Science Education in East Asia Yew-Jin Lee, Jason Tan, 2018-09-26 This edited volume is a state of the art comparison of primary science education across six East Asian regions namely the People's Republic of China Republic of Korea Republic of China Hong Kong SAR Japan and Singapore While news of educational policies classroom teaching assessment and other educational innovations here often surface in the international media this book brings together for the first time relevant information regarding educational systems and strategies in primary science in East Asia Above all it is a readable yet comprehensive survey readers would have an accurate sense of what has been accomplished what has not worked so well and what remains to be done Invited experts in comparative education research and or science education also provide commentary by discussing common themes across the six regions These types of critical synoptic reviews add much value by enabling readers to understand broad commonalities and help synthesize what must surely be a bewildering amount of very interesting albeit confusing body of facts issues and policies Education in East Asia holds many lessons both positive and negative to offer to the rest of the world to which this volume is a timely contribution to the literature

Teaching Indigenous Students Jon Reyhner, 2015-04-29 Indigenous students learn and retain more when teachers value the language and culture of the students community and incorporate them into the curriculum This is a principle enshrined in the UN Declaration on the Rights of Indigenous Peoples 2007 and borne out both by the successes of Indigenous language immersion schools and by the failures of past assimilationist practices and the recent English only policies of the No Child Left Behind Act in the United States Teaching Indigenous Students puts culturally based education squarely into practice The volume edited and with an introduction by leading American Indian education scholar Jon Reyhner brings together new and dynamic research from established and emerging voices in the field

of American Indian and Indigenous education All of the contributions show how the quality of education for Indigenous students can be improved through the promotion of culturally and linguistically appropriate schooling Grounded in place community and culture the approaches set out in this volume reflect the firsthand experiences of teachers and students in interacting not just with texts and one another but also with the local community and environment The authors address the specifics of teaching the full range of subjects from learning literacy using culturally meaningful texts to inquiry based science curricula and from math instruction that incorporates real world experience to social studies that blend oral history and local culture with national and world history Teaching Indigenous Students also emphasizes the importance of art music and physical education both traditional and modern in producing well rounded human beings and helping students establish their identity as twenty first century Indigenous peoples Surveying the work of Indigenous language immersion schools around the world this volume also holds out hope for the revitalization of Indigenous languages and traditional cultural values

Spark a Revolution in Early Education Rae Pica,2022-11-22 Join the revolution in early childhood education Early childhood educators are facing a crucial inflection point in the profession Active learning for the whole child has been increasingly ignored by early childhood education decision makers Research shows that children need movement and play and joy to learn to their fullest potential yet the educational system pushes worksheets and takes away time outdoors among many other harmful and developmentally inappropriate teaching practices Educators everywhere are tired of witnessing unrealistic expectations and impossible attempts to accelerate child development stripping children of authentic learning and their giggles They are disturbed by the inequities that exist in education and want to see every child provided with the good foundation a quality early education can supply They are fed up with the nonsense depriving children of childhood requiring them to teach in ways that they know aren't right Without an understanding of child development guiding ECE policies children have lost their love of learning and play and face growing health issues This book challenges and inspires early childhood professionals to advocate for change in the field while giving them the research underpinnings and tools they need to take real action and bring back active play based learning for the development and education of the whole child Including chapters on debunking myths in early childhood education advocacy basics and strategies for speaking up it dispels the fears associated with speaking up and banishes all doubts about the need to advocate bravely and widely proving the need to change course and providing practical and actionable steps for speaking to decision makers and convincing them to pursue change Spark a Revolution in Early Education busts four myths earlier is better children learn by sitting digital devices are important to learning and play time is not productive time to push for Rae's Revolution and get educators everywhere to stand up for the children
