Ana Robledo, Amber Gove, 2019-02-25 Access to books is key to learning to read and sustaining a love of reading Yet many low and middle income countries struggle to provide their students with reading materials of sufficient quality and quantity Since 2008 RTI International has provided technical assistance in early reading assessment and instruction to ministries of education in dozens of low and middle income countries The central objective of many of these programs has been to improve learning outcomes in particular reading for students in the early grades of primary school Under these programs RTI has partnered with ministry staff to produce and distribute evidence based instructional materials at a regional or national scale in quantities that increase the likelihood that children will have ample opportunities to practice reading skills and at a cost that can be sustained in the long term by the education system In this paper we seek to capture the practices RTI has developed and refined over the last decade particularly in response to the challenges inherent in contexts with high linguistic diversity and low operational capacity for producing and distributing instructional materials These practices constitute our approach to developing and producing instructional materials for early grade literacy We also touch upon effective planning for printing and distribution procurement but we do not consider the printing and distribution processes in depth in this paper We expect this volume will be useful for donors policymakers and practitioners interested in improving access to cost effective high quality teaching and learning materials for the early grades *The Computer Supported Collaborative Learning (CSCL) Conference 2013, Volume 1* ISLS, 2014-04-23 The Computer Supported Collaborative Learning CSCL Conference 2013 proceedings Volume 1 **The Bloomsbury Handbook of Global Education and Learning** Douglas Bourn, 2020-02-20 2021 PROSE Award Finalist Reference Works Learning about global issues and themes has become an increasingly recognised element of education in many countries around the world Terms such as global learning global citizenship and global education can be seen within national education policies and international initiatives led by the UN UNESCO European Commission and OECD The Bloomsbury Handbook of Global Education and Learning brings together the main elements of the debates provides analysis of policies and suggests new directions for research in these areas Written by internationally renowned scholars from Brazil Canada Finland Germany Ireland Italy Japan Pakistan Poland South Africa Spain Sweden Taiwan UK and the USA the handbook offers a much needed resource for academics researchers policy makers and practitioners who need a clear picture of global learning **Growing Language Through Science, K-5** Judy Reinhartz, 2015-03-25 Foster life long teacher learning embedded in effective teaching practices and the science standards Growing Language Through Science offers a model for contextualizing language and promoting academic success for all students particularly English learners in the K 5 science classroom through a highly effective approach that integrates
