Neuroinflammation and Behaviour Luba Sominsky,Adam K. Walker,Deborah M. Hodgson,2015-07-21 The brain and immune system are involved in an intricate network of bidirectional communication This relationship is vital for optimal physiological and psychological development and functioning but can also result in unwanted outcomes In particular this interaction plays an important role in cognition mood and behaviour Neuroinflammation is known to contribute to neurological and affective disorders including impaired learning and memory depressive anxiety and schizoaffective symptoms as well as pain The development of these conditions often occurs on the backdrop of pre existing physical illnesses which give rise to increased activation of the immune system such as cancer obesity infection and autoimmune disorders Similarly psychological states can alter regulation of the immune system This has been most extensively studied in the context of stress and immune function Understanding the underlying mechanisms that lead to the onset of inflammation induced neuropathology and stress induced immune suppression will contribute to the development of novel and effective treatment strategies for both the disease and its neurological side effects In this research topic we explored the relationship

between the immune system and the brain throughout life We include both original research and review papers from animal clinical and molecular perspectives

Theorizing Teaching and Learning in Asia and Europe John Chi-Kin Lee, Kerry J. Kennedy, 2017-03-27 There has been much debate in recent times between the Anglo American tradition of curriculum studies and the Continental and North European tradition of didactics Didaktik As important as such debate has been this book seeks to add new voices to the debate representing ideas and traditions from a different part of the world The focus is on Chinese curriculum thinking that has passed through a number of stages and currently represents a blend of some aspects of the American tradition and Chinese cultural traditions How does Chinese thinking about curriculum teaching and learning resonate with European didactic traditions and what are the implications for theorizing an expanded field of curriculum studies This book deliberately transcends borders and cultures to explore new territory to provide a platform for open dialogue and to open up new areas of investigation Chapters include Curriculum Reform and Research in China A Social Historical Perspective What Mathematics Did Teachers Learn Comparison of the School and the Pre Service Teacher Mathematics Curricula in Germany and Taiwan Living in Parallel Worlds A Transatlantic Dialogue between General Didactics and Instructional Design

Handbook of Women and Competition Maryanne L. Fisher,2017-08-14 While women are generally perceived to be less competitive than men women compete in many ways and in a variety of situations Women try to make themselves look more attractive to draw the attention of a desirable mate They will use gossip as a form of informational warfare to influence reputations They compete as mothers to gain access to resources that directly influence the health of their children They use selfies posted on social media to manipulate others perceptions Women compete all of their lives in the womb through adolescence and adulthood and into their elder years The topic of women s competition has gained significant momentum

over the years Edited by Maryanne L Fisher The Oxford Handbook of Women and Competition provides readers with direct evidence of this growth and is one of the first scholarly volumes to focus specifically on this topic Fisher and her team of contributors offer a definitive worldview of the current state of knowledge regarding competition among women today Many of the chapters are grounded within an evolutionary framework allowing for authors to investigate the adaptive nature of women s competitive behaviors motivations and cognition Other chapters rely on alternative frameworks with contributors also asserting that socio cultural forces are the culprit shaping women s competitive drives Additionally several contributors focus their attention on issues faced by adolescent girls and explore the developmental trajectories for young women through adulthood Designed to serve as a source of inspiration for future research and direction The Oxford Handbook of Women and Competition is a stand out scholarly text focusing on the many competitive forces driving women today
